

## GIVE OUT AMOUNTS EXPECTED FOR LOAN

### Treasury Department Announces What Nation Expects of Each District

## GIVE MINIMUM FIGURES

### New York Reserve Bank Plans to Enable Persons of Small Means to Buy Bonds

## CHICAGO MAKING PLANS

WASHINGTON, May 22.—What every section of the country is expected to do in unloading its purchases for the liberty loan was officially announced by the treasury department.

The figures made public are the minimum. The maximum, it is hoped, will be such an oversubscription as has never before been recorded in the history of any country. In framing the schedule of minimum performances expected, treasury officials have built a structure of figures with the entire banking resources of the country as its foundation.

**Base Calculations on Dollars.**  
They have based their calculations not upon the patriotism of any particular section but upon the number of dollars to be found in the banks of that section. The program thus tentatively created will serve the purpose of showing each district just what the nation expects of it. Coincident with the announcement of the tentative allotments the federal reserve board announced tonight that it had availed itself of the extraordinary powers vested in it by congress and virtually had placed at the disposal of every bank in the United States, member and non-member, the powerful machinery of the reserve system to assist in making the loan an overwhelming success. In making public its tentative allotments of bonds the treasury department has adopted two bases of estimating—a \$2,000,000,000 issue and one of \$2,500,000,000, the latter designed to meet the possibility of any one section failing to take the amount estimated.

**Allotment for Chicago District.**  
The tentative allotment minimum and maximum for the Chicago federal reserve district is \$260,000,000 to \$325,000,000 and for St. Louis district \$80,000,000 to \$100,000,000. Analysis of the tabulation shows that the three reserve districts with headquarters at Boston, New York and Philadelphia are expected to take 49 percent of the loan.

Minimum tentative allotments by states show that Illinois' approximate proportionate share will be \$135,000,000 and Iowa's share will be \$45,500,000.

These figures represent only the minimum expected from each state which is expected to top the minimum by as many hundred percent as possible.

**Plan to Issue Certificates.**  
New York, May 22.—To enable persons of small means to buy liberty loan bonds on an installment basis, the federal reserve bank of New York in conjunction with the liberty loan committee is perfecting a plan for the issuance of participation certificates. It was announced tonight. The certificates probably will be in denominations of \$10.

They will bear the same interests as bonds and may be exchanged for bonds when the holders accumulate the required \$50 worth. Also it is not proposed to have the certificates negotiable in the sense of the \$10 bank notes, the committee points out that they may become so in course of time, this depending entirely upon merchants and others to whom they may be tendered. The committee expresses the hope that stores will buy the certificates and sell them over the counters to persons who would like to buy bonds, but whose means will not permit them to invest as much as \$50 to \$100 at one time.

**Announce Second Plan.**  
Another plan to enable persons of small means to purchase bonds was announced by the league of co-operative savings and loan associations, operating under the national defense share law which recently was approved by Governor Whitman. Any individual with \$1, the league has decided may purchase a bond on installments, with the understanding that the balance may be paid at the option of the buyers at any time within a year.

"Under this plan, in the event that the subscriber fails to pay for the bond within a year, he may get back at any time the amount he has subscribed with the accumulated interest at the rate of three and a half percent based on monthly balances," says the announcement. "The organization makes no charge for the service."

In a letter today to Guy Emerson, secretary of publicity of the liberty loan committee, Colonel Theodore Roosevelt asserted, "It is the duty of every man and of every woman in this country who can possibly afford to do so, to buy liberty bonds in order that guns, ammunition, food and clothes may be promptly and freely furnished to our soldiers who go to the front."

## ITALY'S MISSION DUE IN WASHINGTON TODAY

### Personnel Outranks That of Either England or France

Scope of Work of Envoys Will Take Into Account Many Peculiar Problems Which Confront the Government of Rome.

Washington, May 22.—Italy's war mission, including some of the kingdom's foremost political and commercial figures will reach Washington tomorrow for discussion with American officials along the general lines of war co-operation already laid down in the conferences with the British and French envoys.

Headed by His Royal Highness Ferdinand di Savoia, prince of Udine, and a member of the Italian reigning house, the mission's personnel outranks that of either Great Britain or France. Besides Prince Udine, the mission includes Enrico Arlotto, minister of transportation, and Guglielmo Marconi, the inventor. Signor Arlotto already is in Washington. The other members, who arrived on this side of the Atlantic yesterday will come on a special train accompanied by Breckinridge Long, an assistant secretary of state, who met them as a representative of the government when they reached American soil. The scope of the work outlined for the envoys, while similar to that which called to America the French and British missions, will take into account many peculiar problems which confront the government of Rome.

For one thing Italy's transportation needs are regarded as much greater than those of her northern allies because she is so heavily dependent upon the outside world and particularly America for raw materials. In the matter of food Italy is perhaps better off than the other allies, but she still is in want of great quantities of grain. Any surplus corn produced in America would be gratefully received in Italy. Italy's financial problems resemble those of the other entente allies. Already she has felt the great benefit of American aid in reduced exchange rates and in the moral encouragement of her population.

With these bases for discussion the mission expects to be busy here for at least a month.

## INVITES REVOCATION OF NEUTRALITY DECREE

RIO JANEIRO, May 22.—President Braz has sent a message to congress recommending the revocation of the decree of neutrality in the war between the United States and Germany. Congress is expected to accept the recommendation by a large majority.

The message declares that the order to the Brazilian authorities enjoining the observance of neutrality was only intended to have effect until congress met. It continues:

"Today, in consideration of the fact that the United States is an integral part of the American union, in consideration also of the traditional policy of Brazil which has always been governed by a complete unity of view with the United States and finally in consideration of the sympathies of a great majority of the Brazilian nation, the administration invites congress to revoke the decree of neutrality."

## RUSSIAN MISSION ARRIVES IN NEW YORK

NEW YORK, May 22.—Three Russian naval officers and a civilian, representing they say the new Russian government, arrived here today on their way to Washington. They said they were on a special mission which they declined to discuss.

The party consisted of Lieutenant Leon Kagenikoff, Lieut. Nikola Pehkoff, Sub-Lieut. Andre Mizura and Vladimir Iliashchenko. Members of the party said they would not go immediately to Washington, but would remain in New York for some time. All of them, it is understood have been in diplomatic and military duty in England and France.

## AGREE ON POLISH QUESTION

Berlin, Monday, May 21, via London, May 22.—It is learned on good authority that a complete agreement has been reached between Germany and Austria on the Polish question as the result of the conference at Great Headquarters between Chancellor Von Bethmann-Hollweg and Count Czernin, the Austro-Hungarian foreign minister. Count Czernin returned to Vienna today after a visit to the western front.

## LIGHTNING CAUSES FIRE

Belvidere, Ill., May 22.—Lightning struck a Catholic church at Springfield last night and in the resulting fire the church, a parochial school building and a residence were burned. The damage was estimated at \$15,000.

## FEEL EARTHQUAKE

Ogdensburg, N. Y., May 22.—Three distinct earth shocks were felt in this vicinity at 4 a. m. today. Persons were roused from sleep by the shaking of their houses, but no damage has been reported.

Colonel Roosevelt said he had invested in the bonds.

**Chicago Working Out Plan.**  
Chicago, May 22.—Representatives of all of the clearing house banks of Chicago today were working out a plan whereby liberty loan bonds may be sold over the counters of department stores. According to the plan proposed all of the banks will issue \$50 and \$100 loan bond certificates and the stores will place them on sale to be purchased by persons who prefer to pay cash instead of availing themselves of the installment plan.

## CHALLENGES STATEMENT OF GERMAN CHANCELLOR

COPENHAGEN, via London, May 22.—Director Zimmermann of the Berlin Lokal Anzeiger challenges, in his Monday article, Chancellor Von Bethmann-Hollweg's statement in the Reichstag that he and the military leaders were in full accord regarding the war aims. Herr Zimmermann says that the unity of views, according to his knowledge, applies only to military and strategic aims, on which the chancellor has accepted the views of Hindenburg and Ludendorff, the morally responsible generals. He denies that Von Bethmann has any right to claim the generals as the champions of his views as to the political and economic aims of the war.

## HUDSON MAXIM INVENTS SUBMARINE ANTIDOTE

### Inventor Makes Announcement At Brooklyn Luncheon

Antidote Invention Soon Will Be Demonstrated by the Government, Which Has Already Been Advised of the Details.

New York, May 22.—Hudson Maxim announced today that he had invented and perfected a device which will make ships immune from submarines. He said that torpedoes, even when fired at close range and striking their targets would explode harmlessly against the hulls of their intended victims. The inventor made the announcement at a luncheon given in Brooklyn. He asserted that the invention soon will be demonstrated by the government which already had been advised of the details.

"The invention is practical for every type of vessel," he said, "it can be applied within a very few months at a comparatively cheap price to the hulls of ships already constructed. The only change necessary in vessels already built will be a slight enlargement in their beams. My device is of solid material and encircles the entire ship from the bow to the stern. It in no sense or manner resembles either a screen or net."

## GEN. CROWDER ISSUES GUIDE TO CONSCRIPTS

WASHINGTON, May 22.—Do not hide behind petticoats or children to avoid service in the new national army," is the injunction of Provost Marshal General Crowder, in an official guide he has issued to show how questions put to those who register on June 5 should be answered. The guide explains that there is no desire by the government to draft any one who is the sole support of any man, woman or child but points out that unless the person you have in mind is solely dependent on you, exemption would not be granted.

The registrar will drop permanently from the list those whom physical defects, such as the absence of a leg or an arm mark unfit for service, but all other claims for exemption will be passed upon by the local boards.

## STATE SUNDAY SCHOOL ASSOCIATION MEETS

KEWANEE, Ill., May 22.—The fifty fifth annual meeting of the Illinois State Sunday School association opened here today with more than one thousand delegates in attendance. President John H. Hamberg of Rock Island presided at the opening session. W. C. Pearce delivered an address on the key word of the convention, "service."

## QUINCY MAYOR OUT TO BREAK COAL TRUST

QUINCY, Ill., May 22.—Mayor John A. Thompson is out to break the coal trust. At a meeting of the city council last night, a resolution was passed placing the city of Quincy in the open market for fuel for municipal use.

Mayor Thompson has issued a proclamation to the people of the city urging them to band together and buy coal direct from the mine, declaring that he can put them in touch with a place where it is possible to purchase the fuel for \$2.50 per ton at the mine, which means about \$3.25 here.

## RANKS OF STRIKERS AUGMENTED

Paris, May 22.—The ranks of the Paris dressmakers who strike were renewed yesterday because of the rejection of their demands for a Saturday half holiday, were augmented today by women makers of lingerie, corsets and furs, together with additional employees of millinery establishments. The strikers engaged in parades which, however, were not accompanied by any disorder.

## INDUSTRIAL PREPAREDNESS THE TOPIC

Chicago, Ill., May 22.—The human factor in industrial preparedness is the topic to be discussed at a conference of manufacturers, bankers and business which assembled at the Auditorium in this city today for a three-day session. The Western Efficiency Society is the sponsor for the gathering.

## BOILER MAKERS AT RICHMOND

Richmond, Va., May 22.—Methods by which the members may best serve the nation during the war are to be considered at the annual convention of the Master Boiler Makers' Association of the United States, which assembled in this city today. Several hundred delegates are attending the sessions, which will continue until Friday.

## ADOPTS PROPOSAL TO RAISE MAIL RATES

### House Virtually Completes Consideration of War Revenue Measure

## ADJOURNS UNTIL NOON

### Measure As It Ultimately Goes to President Will Be Perfected in Conference

## SCHEDULE OF CHARGES

WASHINGTON, May 22.—Sitting until after midnight, the house tonight virtually completed consideration of the \$1,800,000,000 war revenue bill by adopting 158 to 71 a new proposal from the ways and means committee for increased second class mail rates under a zone system.

A few unfinished actions, including the proposed tax on advertising, will be voted on tomorrow before final passage of the bill. Redrafting of the bill in the senate is expected and the measure as it ultimately goes to the president will be perfected in conference.

## Mann Wages Vigorous Fight

Attention centered through the evening upon the proposed advance in second class mail rates, against which Republican Leader Mann and others waged a vigorous fight. As a substitute for the original section in the bill, the ways and means committee in the afternoon brought in the new plan of progressive increases based upon the present parcel post zones, under which the highest rate ultimately would be six cents a pound.

Nearly all of the contested sections had been completed when the second class mail proposal was taken up under agreement that it should be debated three hours.

The tariff section, adding ten percent to all duties now imposed and taxing nearly all articles now on the free list ten percent was retained after Representative Lenroot of Wisconsin had striven unsuccessfully to have it eliminated.

## Schedule of Mail Charges

Following is the ways and means committee's schedule of second class mail matter charges: First zone one and one sixth cents per pound, second and third zones one and one third cents; fourth and fifth zones, one and two thirds cents; sixth zone, two cents; seventh zone, two and one third cents; eighth zone two and two thirds cents. Effective Nov. 1, first zone, one and one third cents; second and third zones, 1 2/3 cents; fourth and fifth zones, 2 1/3 cents; sixth zone three cents; seventh zone 3 1/3 cents and eighth zone 4 cents.

Effective March 1 (and thereafter), first zone one and one half cents; second and third zones, two cents; fourth and fifth zones, three cents; sixth zone 4 cents, seventh zone five cents, and eighth zone, six cents.

Sections of the bill completed included the taxes previously agreed to on incomes, excess profits, inheritances, beverages, cigars and tobacco, public utilities, insurance, manufactures, amusements, and club dues and the war stamp taxes.

**Wanted Section Eliminated.**  
Representative Mann appealed to the house to eliminate the entire second class mail section from the bill.

"We spend every year in the United States," he said, "hundreds of millions of dollars in primary education and a very large amount in college education for the youths. But the great educational force of the country is in the newspapers and magazines. The great mass of the people of this country get most of their education aside from their every day experiences from reading the news, advertisements and other matter in the newspapers and magazines. Nobody would suggest that we close our schools or stop primary education in the land, and I know of nothing that will be of more value to the people of this country than to have these educational facilities in the highest degree during the war. It will be a mistake to lay a burden on the newspapers. We all know the inception of the second class mail privilege was for educational purposes."

Representative Graham of Pennsylvania said the matter was not one for revenue but for a postoffice bill and that the tax proposed would drive a large number of publishing houses out of business.

Representative Longworth of Ohio favoring the bill read a letter he received today from former Senator Oliver, a Pittsburgh publisher supporting the proposed increase and criticizing publishers who oppose it as selfish.

## REPORT ON SUBSCRIPTIONS

Springfield, Ill., May 22.—Subscriptions to the Liberty Loan are coming to Springfield banks at the rate of \$25,000 a day, bankers stated here this morning, the total being \$200,000.

## COUNT TARNOWSKI REACHES ROTTERDAM

ROTTERDAM, via London, May 22.—Count Tarnowski Von Tarnow has arrived here after an uneventful voyage from the United States. Count Tarnowski, whose ambassadorship to Washington ended before it began, will leave for Vienna on a special train tomorrow morning. At the same time his fellow passenger, Admiral Paul Von Hintze, dismissed German minister to Peking, will entrain for Berlin.

No submarines were sighted by the liner on which the German and Austrian diplomats travelled and Count Tarnowski declared that his visit to the United States had been most enjoyable.

## MOB BURNS NEGRO TO DEATH NEAR MEMPHIS

### Chain Victim to Fallen Tree at Scene of His Crime

Negro Repeats Former Confession That He Chopped Young Girl's Head Off and Implicates Two Other Negroes—Fosse Captures One Negro—Expect No Further Trouble.

Memphis, Tenn., May 22.—Chained to a fallen tree at the scene of his crime, Eli Persons, the negro who confessed he killed Antoinette Rappel, a young girl, three weeks ago, was burned to death today by a mob in the country about ten miles from Memphis. The body was badly mutilated, the head being severed and placed on the roadside nearby, where it remained several hours.

The mother of the dead girl, identified the negro, and in a short speech to the mob, urged them to burn the slayer of her child. She refused, however, to apply the match.

Before he died Persons repeated his former confession that he chopped the child's head off and implicated two other negroes in the crime.

The two negroes implicated in Persons' dying statement were captured by a posse of citizens a few hours later and subjected to a searching inquiry. One was released and the other a deaf mute, was ordered detained temporarily. Tonight the section was quiet and authorities said they expected no further trouble.

Hunt Wilson, county attorney general announced tonight that a grand jury investigation of the lynching could be instituted at once. A coroner's jury which held an inquest late today, returned a verdict that Persons came to his death "from causes unknown to the jury."

## MUST STRENGTHEN TIIN, PIPING VOICES

FORT SHERIDAN, Ill., May 22.—Thin, piping voices must be strengthened, instructors told the candidates for commissions at the reserve officers' training school here today. A successful officer, it was pointed out, must be able to give his orders in a tone which will carry above all other sounds and which will command respect. After the voice drill a number of the men went down to the lake front and practiced shouting commands.

Company commanders were collecting a \$25,000 mess fund from among the candidates, it being asserted that the money will be used until an appropriation is available.

## FINS WANT COMPLETE SEPARATION FROM RUSS

HELSINGFORS, Finland, May 22.—(via Petrograd and London, May 22.)—A congress of the Swedish political party, representing a majority of Finland's wealthiest and most influential classes, yesterday passed a resolution favoring a complete separation of the Grand Duchy of Finland from Russia.

The resolution reads: "The Finnish people have progressed so far in cultural and political development that Finland is entitled to make a demand to take her place as an independent state among the number of sovereign nations." This radical resolution is only the latest development of the separatist agitation which started after the revolution and which is occasioning anxiety in Petrograd and bringing out sharp comment in the Russian press.

## KILLS D. & R. G. OFFICIAL

Durango, Colo., May 22.—M. A. Phene, assistant superintendent of the fourth division of the Denver & Rio Grande railroad was shot and instantly killed today in his office by John E. Graves, agent here for the road. The shooting is said to be the result of a personal grievance. Graves surrendered to the sheriff.

## PROVIDES PRIZES FOR LIBERS

New York, May 22.—As an encouragement to aviators throughout the country to participate during the week of June 4 in a "Liberty loan aerial rally," the Aero Club of America has arranged to present a \$100 bond to each flier who reaches the destination assigned to him.

## WEATHER INDICATIONS AND TEMPERATURES

Illinois: Fair Wednesday and Thursday with rising temperature.

Temperatures.	
The current maximum and minimum temperatures as recorded for Tuesday were:	
Jacksonville . . . . .	43 63 41
Boston . . . . .	48 54 52
Buffalo . . . . .	70 79 40
New York . . . . .	50 62 50
New Orleans . . . . .	80 88 44
Chicago . . . . .	49 43 41
Detroit . . . . .	45 64 40
Omaha . . . . .	56 58 40
St. Paul . . . . .	54 56 42
Helena . . . . .	54 56 42
San Francisco . . . . .	56 60 48
Winnipeg . . . . .	60 60 28

## WILL ORGANIZE SCORES OF GUARD REGIMENTS

### New Units Necessary Under War Department's Plans

Adjutant General of States are instructed that They Should Prepare for These New Organizations Without Delay.

Washington, May 22.—Organization of scores of new regiments of national guard artillery, engineers, signal troops and cavalry will be undertaken soon to supply the tactical formations necessary for the establishment of the sixteen divisions of the guard provided for in the war department's plans. In addition to these troops, immediately after the existing state soldiers have been drafted into the federal service there must be organized divisional headquarters, detachments, supply and medical trains, heavy field artillery and signal battalions, an aero service, two cavalry divisions and many new coast artillery units and reserves.

## Need 30 Infantry Regiments.

Comparison of the organization tables for the sixteen infantry divisions shows that in the infantry thirty regiments and six companies must be created to provide the 144 regiments of the divisional structure.

The principal shortage is in field artillery. Each of the sixteen divisions require three full regiments of six batteries each or a total of 288 batteries. There now exist in the guard 198 batteries.

The shortage of engineers is almost as great. There will be needed sixteen regiments, or a total of 96 companies whereas there now are only 30 companies. Each division also will have an aero squadron or balloon company making sixteen air service units. New York has one aero squadron less one company.

## To Bring Guard to War Strength.

The first effort of the department is to bring up to full war strength all existing units of the guard. When that has been accomplished and the force has been drafted the next step will be to create the new units necessary to complete the sixteen infantry divisions and the adjutant general states that the states have been instructed that they should prepare for these new organizations without delay. Illinois will be called upon to furnish in addition the following:

One regiment infantry, two regiments field artillery, one regiment (less one company) engineers; one battalion (less one company) signal corps.

## MEXICO FILES PROTEST AGAINST "SUB" WARFARE

Report Follows Prolonged Conference Between Mexican Minister and German Foreign Secretary

Amsterdam, May 22.—(via London.)—A Berlin despatch to the Associated Press says that the Mexican minister to Germany reported to have handed a note to the German government protesting against the submarine campaign. The report followed a prolonged conference between the Mexican minister and Foreign Secretary Zimmermann on Monday.

## Thoro Understanding Exists

Mexico City, May 22.—It was indicated here today that a thoro understanding existed among government officials and the United States had not and would not exercise pressure to force Mexico to take sides in the war.

General Alvaro Obregon, who recently resigned as minister of war, explained today the reasons which prompt Mexico to endeavor to maintain absolute neutrality in the war. At a farewell dinner before his departure tomorrow for Sonora, he said, Mexico's self-respect called for this policy. Even if Mexico joined the war, he said, she could give no effective aid. She could furnish neither men, ships, supplies, nor money. Under such conditions Mexico could not with self-respect enter the war unless forced to do so, and certainly not merely for the sake of gain.

General Obregon indicated that benefits which might accrue to Mexico from a declaration for one side or the other were appreciated clearly, but said it did not seem to him to be compatible with the dignity of the nation to accept such benefits when all that Mexico could give in return was as he expressed it, "our regards." After visiting his home in Sonora, General Obregon will go to Washington and New York.

## NAMES CAPT. REILLY ARTILLERY COLONEL

SPRINGFIELD, Ill., May 22.—Captain Henry J. Reilly of Battery E, Chicago, first Illinois Artillery today was made colonel of the regiment by Governor Lowden to succeed Colonel Charles D. Allen, a regular army officer who went to the Mexican border with the newly formed unit and resigned soon after its return.

Captain Reilly recently returned from France where he was permitted by the French authorities to study modern artillery methods under war conditions. The first artillery is made up of four Chicago Batteries, Battery A of Danville and Battery F of Chicago.

## WADDO PLANS SECOND TRIP

Denver, Colo., May 22.—Secretary McAdoo of the treasury department announced here late today his intention of making a second trip on behalf of the liberty loan. This journey will carry him to New York, Boston, Detroit, St. Louis, Cleveland, Cincinnati, Pittsburgh and Harrisburg, Pa. He will leave Washington June 4 to make this tour.

## OFFER SECOND OF FOOD MEASURES

### Bill Would Create Agency to Control Distribution and Sale of Necessaries

## CONFERS WIDE POWERS

### Consideration of Food Measures Will Be Hurried As Much As Possible

## PROVISIONS OF BILL

WASHINGTON, May 22.—The second of the administration's food bills revised to create an emergency agency to control, under the president's direction, distribution and sale of the necessities of life was introduced in the house today by Chairman Lever of the agriculture committee. The first bill aims at stimulation of production and calls for a general survey of the country's food resources.

## Includes Price Fixing.

The regulatory measure was redrawn after President Wilson had held a series of conferences with Herbert C. Hoover, who is to be food administrator under the bill and with Secretary Houston and members of the agriculture committee of both houses. It places the widest powers of control over necessities of all kinds, including price fixing, in the hands of the executive.

Consideration of the food measure will be hurried as much as possible. The senate will take up the first bill tomorrow and the senate committee is expected to report out a bill similar to the one introduced today within a short time. The house will take up the food question as soon as the revenue bill is out of the way.

The legislation as now proposed by the administration, Mr. Hoover thinks, will meet the food problem.

## Provisions of Measure.

Briefly the measure introduced today would do these things:

Declare the production, manufacture, storage, distribution and sale of necessities to be affected with a public interest.

Make it unlawful to commit or permit preventable waste or deterioration of necessities.

To restrict supply or distribution or to enhance prices to excessive levels.

Authorize the president to establish standards and grades of foods to establish their quality and value.

Authorize licensing of manufacture, storage and distribution of foods to prevent un-economic manufacture or inequitable distribution.

Empower the president to direct the disposition of hoarded stocks.

Authorize the president to prevent hoarding, monopolization or the exaction of excessive profits, by having the government either manufacture or deal in necessities.

Authorize the taking over of factories or plants for government operation if necessary to provide proper distribution at fair prices.

Authorize the president to prescribe rules for the control of exchanges, and boards of trade or to prohibit entirely their operation if in the public interest.

Authorize the fixing of

### AN EXAMPLE IN PATRIOTISM

The little town of Deiterich in Edgingham county has furnished an example of patriotism for the rest of the state. There are but 600 residents in this village and already seventy six men have voluntarily offered themselves for service in a machine gun company. The movement to organize the company was started only a week ago. They are not waiting for the conscription law in Deiterich and they are not raising the question of age.

### HONEST OREGON

Gen. Oregon, who recently resigned as minister of war in Mexico, on the face value of his words is a man of both intelligence and honesty. In declaring that Mexico will preserve strict neutrality in the great war he has said that Mexico has no armed forces, ships, munitions or money which could be placed at the disposal of either side. With conditions as they are in Mexico, neutrality is the logical course and it is presumable that the U. S. will be entirely satisfied if that neutrality is of the sincere kind.

### EXTENDING THE CAMPAIGN.

Conservation of the food supply and the seeking for diet substitutes is not to be confined to the table of Americans. It has remained for the animal husbandry departments of various colleges and universities to begin campaigns of education about different foods that can well be used for feeding horses and fattening cattle and hogs. The ultimate purpose of course is to conserve the supply of corn and other products for human consumption.

If this campaign of education teaches farmers who have not realized it, how much food value there is in ensilage the work will be well worth while. Many farmers already understand that value but a greater number are satisfied to follow old methods of feeding and thus waste a large percentage of the corn stalks that grow in their fields.

### A POOR EXAMPLE IN HUMANITY.

It is hard for residents of the north to understand the feeling in the south which results in such a brutal scene as that witnessed near Memphis, Tenn., this week when a negro murderer was burned in the presence of two or three thousand people. The crime the man confessed was awful, it is admitted, but that in itself constitutes no excuse for the brutality of mob violence in this country where there is ample punishment fixed by law. In the south, at least, there would be not the slightest shadow of doubt but that this man would have been convicted if brought to trial.

The unrestrained fury of mob violence coming at this time will look especially wicked and weak as the U. S. is taking the high ground of having entered this war for humanity's sake. We have rightly criticized and protested against cruelty practiced during the war in Europe, but that cruelty was not greater than that evidenced in Tennessee this week. True, the fury and the cruelty in the war has been on a larger scale but the underlying spirit cannot justly be more vigorously condemned than that which occasionally manifests itself in the mob violence of the south.

### RED CROSS EFFECTIVENESS

One of the most practical things that the Red Cross society will attempt will be the co-ordination of all war relief measures as a means of preventing duplication and waste. In such times as these and in the more strenuous days to come, many people have been found with patriotic impulses who honestly desire to aid their country and to give comfort to soldiers in the field. Enthusiasm with such people often supplants judgment and the same applies not only to individuals but to organizations which spring up for relief purposes.

But in the Red Cross organization all those who are anxious to do their part in relief work have the opportunity to contribute. They can have the assurance that funds entrusted to the Red Cross society will be expended wisely and honestly and that the largest amount of relief for the least amount of expenditure will be secured. The Red Cross society has been organized so long and has such efficient leadership at its helm that the society presents a really feasible way for the great mass of people to find vent for their patriotic desire to give aid.

### WHY NOT IN JACKSONVILLE.

Registration day, June 5, when all young men between the ages of twenty-one and thirty-one must appear before the registration officers is not far distant. The movement to have the day observed like a national holiday has been started and many cities have taken up the plan heartily. Certainly the idea is well worth attention. While in this county the direction of registration work is in charge primarily of the sheriff, preparations for special observance of the day might well be made by city officers. In a number of cities such plans have already been perfected. There will be parades and patriotic demonstrations and special honor will be paid to those who register. In some cities buttons in patriotic design are to be given to these young men and in other cities badges have been designed to wear upon the coat sleeve. But no matter what the particular method of observance, this movement in which Jacksonville should take part. Nearly half the population of Morgan county is in Jacksonville and so it is to be expected that this city will initiate any movement along this line.

### ROCKING THE BOAT.

The following editorial from the Springfield News-Record gives timely advice to a certain group of citizens lacking in patriotism:

A meeting will be held in the auditorium in Chicago next Sunday for the purpose of demanding that the United States government announce at once "its concrete terms of peace." The meeting has been called by a self-constituted committee of pacifists and it will be attended mainly by pacifists and others who are opposed to the course the nation is pursuing.

It will pose as a mass-meeting of representative citizens of Chicago, and the resolutions the pacifist committee expects it to adopt will go out under the false claim of popular expression of opinion.

Such meddling meetings as this can do no end of harm.

The aims of the United States government are clear. President Wilson in numerous addresses has set them forth. The government has built up the Central Powers which knows no justice except the justice of might and which recognizes the rights of no people, is to be defeated. It is difficult to understand how this could be made clearer than the president and congress have made it.

It is impossible to go into details at this time. To demand a concrete statement on peace before Germany is ready for peace would be disastrous.

The details of the demands must depend upon the outcome of the war. When the Civil War began, it was not certain that it would result in the freeing of the slaves. The emancipation proclamation came when the situation justified it.

And in this war, the concrete purposes of this government in minute detail cannot be announced until the war has been fought to the point where Germany is ready to discuss terms.

Just now, the need is a vigorous prosecution of the war, in order that when the times comes this government may be in a position to put into effect the great purpose of the American people, as expressed by the president:

To vindicate the principles of peace and justice in the life of the world as against selfish and autocratic power and to set up among the really free and self-governed peoples of the world such a concert of purpose and action as will henceforth insure the observation of these principles.

### KNOWLEDGE OF GERMAN LANGUAGE ESSENTIAL.

People who are advocating the dropping of the German language as a subject taught in the public schools evidently forget that a widespread knowledge of an enemy's language is an excellent offensive weapon in war. The proficiency of nearly every German officer in English and French, in marked contrast to the general deficiency in German on the part of both the French and British officers, has been an immense advantage to the Germans in this conflict. It has enabled them to maintain spies in every quarter, to practice many clever ruses de guerre, of an immense value, and to inform themselves very directly of the many's gigantic preparation of forty enemy's proceedings and intentions. In fact, not a small item in Germany for this war which was to make her the mistress of a forever subdued France if none of her calculations had gone amiss, was the amazing mastery of the French language acquired in certain German schools, and which astounded visiting French educators more than any body else. Germany was preparing her army of spies, conquerors and officials for the occupation of Belgium and French territory. The fact that the United States with this war abandons its purely western hemisphere position, and is henceforth to be world-wide in its interests, truly a "world power" in its diplomatic relationships, and tendencies, makes a study of all the great languages more than ever imperative. Linguistic knowledge of this sort is ofentimes of immense advantage to officials at Washington, as was the case in the recent visit of the French envoys, and is likely from now on to be of greater and greater value.

### Rippling Rhymes By WALT MASON

#### THE SOLDIER'S FAREWELL.

The soldier for the battle leaves, and to his girl he says, "My pet, I've donned my vambraze and my greaves, my pauldrons, helm and soleret. My country calls, and I must go, to fight for her, on land or sea, and every time I bag a foe, I'll think Miranda Jane, of thee. We'd planned our wedding for this spring, the month of June should see us one; but there will be no wreath or ring, until this righteous scrap is

done. We'll join our hands when I come back, from scenes of turmoil and of gore; I love you nine ways from the jack, but, dear, I love my country more. You could not honor me, dear maid, if in your secret heart you knew that I was shrinking and afraid, when banners waved and bugles blew. I hear of young men wedding girls that they may dodge the battle line; those brides, alas, are casting pearls before the cheapest kind of swine. Unless I have my girl's respect I do not ask her for her love; and so I go forth to collect a lot of German scalps, my dove. My tassets, cushions, shield are on, my gorget's fastened in its place; and so one kiss, and then I'm gone, to make some Prussians run a race."

### THIS DATE IN HISTORY

May 23, 1849—A theological seminary is about to be established at Galena, Illinois, under the auspices of the General Assembly of the Presbyterian Church.

### WIFE OF PIONEER M. E. MINISTER DIES HERE

Mrs. Ellen W. Barrett's Long Life Closed—Anthony Ferguson Dies After Long Period of Illness.

Death came at 3:15 o'clock Tuesday morning to Mrs. Ellen Watson Barrett at the home of her daughter Mrs. T. L. Cannon, 626 South Diamond street, following a six weeks' illness from cardiac arterio sclerosis. Mrs. Barrett was the widow of Rev. George J. Barrett, pioneer Methodist minister of Central Illinois. Mrs. Barrett lived for many years in Pittsfield, where her home was of that especially comfortable type built in earlier years. While still maintaining her home in Pittsfield, for several years past Mrs. Barrett has been spending a portion of each year with her daughter here.

It was January 18, 1835, that Mrs. Barrett was born in Pittsfield and she was the daughter of William and Diadem McQuigg Watson. After attending the schools of Pittsfield she became a student at Monticello seminary at Godfrey and graduated there in the class of 1854. She had been for a number of years known as the oldest living alumna of that institution. Mrs. Barrett is survived by one son and one daughter. Mrs. T. L. Cannon of this city and Oliver Barrett of Chicago, both of whom were present when the final hour came. Surviving also are two stepchildren, Fred P. Barrett of Atchison, Kan., and Mrs. Grace Van De-water of Long Beach, Cal. Mrs. Barrett had been for a great many years an active member of the Methodist church in Pittsfield and had also been identified with the W. C. T. U. She was a woman of especially strong character and lived through the years in such a way that she was an active co-worker with her husband in the ministry, and many there are who can attest her helpful influence.

Rev. George J. Barrett, to whom the deceased was married in comparatively early life, was conspicuous among the ministers of the Methodist church in this part of Illinois. He was very popular with the ministry and made a name for himself as both brilliant and spiritual. Many are the stories of his utterances handed down in the annals of Methodism particularly because of the quaint humor which marked his utterances. Mr. Barrett was a contemporary and fellow worker with Rev. Peter Cartwright and in some ways was as conspicuous a figure in the early religious effort of the state as was that pioneer of Methodism. In the early days of Brooklyn church in this city he served for a time as pastor. It was shortly after the close of his work there, while still a resident of this city that he suffered a stroke of apoplexy in the pulpit of the church he was serving and death came almost instantly. That event was in 1877.

Private services will be held at 3:30 o'clock this afternoon at the home of Mr. and Mrs. T. L. Cannon, 626 South Diamond street. The remains will be taken to Pittsfield this afternoon on the 5:15 train and another service will be held at the home of the deceased in Pittsfield Thursday, in charge of Rev. W. R. Leslie, pastor of the M. E. church there. The services here will be conducted by Rev. E. A. McCarty and Rev. E. L. Pietscher. Interment will be in the family lot in the cemetery at Pittsfield. Friends are asked to omit flowers.

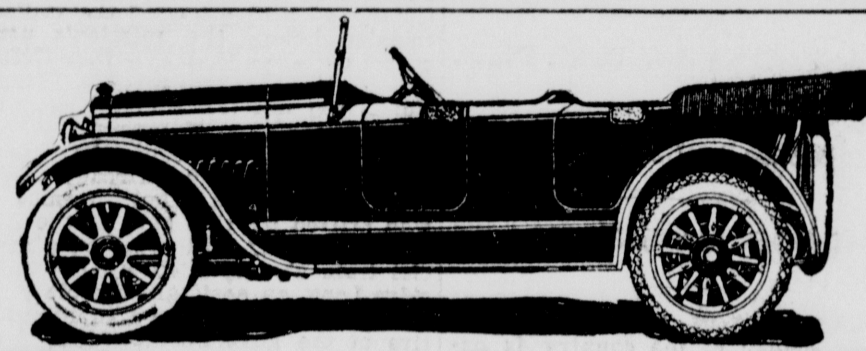

#### Ferguson.

Anthony Ferguson, a long time resident of Morgan county, died Tuesday evening at 5:30 o'clock, at his residence on Jordin avenue. Mr. Ferguson had been in failing health for a long period and his death was expected by those familiar with his condition. The deceased was born on a farm near this city, the son of Benjamin and Susan Ferguson, and his entire life was spent in this community. For a long period he followed the occupation of farmer with success and after giving up the arduous duties of the farm and becoming a resident of this city he for a number of years held the office of constable and met the duties of that position with faithfulness and efficiency.

The deceased was married Nov. 1, 1855, to Lucinda Tunnell and nine children were born to them, seven of whom survive. Some time subsequent to the death of his wife, Mr. Ferguson was again married. His second wife was Mrs. Grace F. Curtis and their marriage occurred Dec. 5, 1905. Mr. Ferguson survives, together with the children already mentioned, A. J. Ferguson, Jacksonville; Mrs. Susan Benson, Jerseyville; Mrs. Lizzie Ewen, Alexander; Mrs. Ida Todd, Buffalo; B. F. Ferguson, Jacksonville; Mrs. Edith Six, Alexander; Mrs. Maude Welch, Quincy. Two sons, W. T. and Horace Ferguson died a number of years since. The deceased also leaves one brother, Champion Ferguson of this city; four sisters and a brother having preceded him in death. There survive also twenty eight grand children and twenty one great grand children. Mr. Ferguson was a mem-

A. J. Hatfield of Ava was attending to business matters in the city yesterday.

Mrs. Margaret Colwell of Alexander was among the shoppers with Jacksonville merchants yesterday.

HONOR THE GUARD

In the piping times of peace, when the fools said war must cease, And anyway could not reach us again Thru our country here and there men still gathered to prepare And drill themselves to sterner regimen.

They were The guard; the national guard! Tin soldier boys parading; just the guard.

When they marched by with a band sometimes they'd get a hand; But otherwise why bother 'bout the guard?

They were farmer boys and clerks, trainmen—everything but shirks, And they met and drilled as often as they could, For they knew when trouble came they'd be called to play the game And give their lives for our fool-hardhood.

They were The guard! Our neighbors doing duty as our guard! While we blabbered of our might they just got in trim to fight.

So when our showdown came we'd have a guard, Thus they're going now for us, and you don't hear any fuss, Tho they've wives and babies home like yours and mine.

They had no more call than you, except they chose to do And were ready to fight in the battle line.

So honor to The guard! For trouble's come, we know it. They're our guard! Mr. President, give the order! Right away! Quick! Men! We need 'em! Call the guard!

—(Exchange.)

## PARK BOARD TALKED ON VARIOUS THEMES

Major McDougall Made Statement On Behalf of Monument Association—Report on Park Inspection in Springfield Made by Mr. Brady

The park board met last evening in regular session with all members present except Member Gimes. All properly approved bills were ordered paid.

Mrs. Wehl reported a contract for a new well at Duncan park let to Otto Hoffman, the work under way and would probably be completed in a few days with good weather. The dirt is to be used to fill the well now along the walk in the center of the park. The cement contractor had the misfortune to have some green walk down during the severe rain and some will probably have to be replaced.

G. A. Scher was present and was the only one offering to bid on the contemplated improvements in Central Park in the way of lighting and boulevard lamps. He presented two bids which were laid over and not yet accepted as Mr. Gimes, one of the members of the committee on that work was not present.

Major C. E. McDougall, chairman of the Morgan County Soldiers and Sailors' monument association, was present and addressed the board regarding the proposed new cement walks and general beautifying and improvements intended for central park. It has now been definitely settled that the monument is to be erected in the center of the park. A design approved by the council and association is selected. It is the earnest desire of the monument association to have all work in harmony with the park board and at the same time to have the work done in such a manner that it will look like a finished job. If a part of the cement walk would have to be removed to accommodate the monument it would be impossible to remove it. The work to be done so as to look at all well and if the work could be done at the park some heavy stone and other material which might damage the beauty of the walks which would be undesirable.

After considerable friendly discussion it was the sentiment of the board that it would be set some weeks before the cement contractor would get to the center of central park. It was also decided that some of the present walks with some flowers or ornamental shrubbery would look well around the base of the monument. It was suggested that a circle of some fifty or sixty feet be left by the cement contractor and that would surely be ample for the base of the monument with a spare space about it for some kind of growth. Then the work can be done and there will be no patchwork or piecing of the walks.

As to damaging the walks with heavy loads, that can largely be overcome by having nice rollers during the erection of the monument.

Mrs. Wehl and Mrs. Hollinger reported that they had been inspecting the waiting test rooms of the west end of the pavilion and found them needing new curtains and various improvements. It was decided that the ladies' room with new rugs, curtains, and decorate the walls and hereafter all transient or persons who rent the pavilion for one night only will be charged ten dollars.

The custodian, Mr. Brennan and the policeman had had considerable vandalism in the way of pulling flowers. It seemed strange that persons will abuse the free use of the park and pull down the flowers and policeman are ordered to arrest any persons detected in pulling flowers in any way mutilating or breaking shrubbery or trees.

A new pump is needed on the south side and one for the new well at Duncan park and the secretary was made a committee of one in the matter.

The flowers and lilacs in the pond have been planted and they make a fine appearance and generally seem to be doing well except some things which were injured by the heavy rain Sunday night.

All persons having boats on the pond will hereafter be required to supply poles and keep their boats locked when not in use. This must be rigidly enforced or boys will take loose boats and go riding endangering their lives.

All swimming must be north of the monkey house.

Mrs. Wehl and Mrs. Hollinger had been to Springfield on a tour of inspection of the park and returned to Jacksonville and made their report. They were accompanied by Mrs. Danks and were indebted to E. C. Walker for the use of his car and himself as chauffeur. The trip was very pleasant and profitable and the superintendent of the park system was most cordial and courteous, giving the visitors all possible information and showing them all over the grounds.

W. J. Brady, secretary of the trip and made the following report:

I have the following report to offer on our trip of Park Inspection to Springfield, Ill. Rev. W. E. Spooner kindly acted as our chauffeur. A. J. Brady, as guide and Mrs. Danks as sanitary officer in charge of the two boys, members of the trip.

Springfield, Ill., claims a population of from 60,000 to 75,000 with \$25,000,000 allowed for Park maintenance with one general superintendent at an \$180,000 salary per year. There are parks as follows:

Washington Park.....15 Acres  
Bunn Park.....12 Acres  
Lincoln Park.....12 Acres  
Bergen Park.....9 Acres  
Enos Park.....4 Acres  
Madison Park.....4 Acres  
Hos Park.....4 Acres

They have two golf links, one of nine holes and one of eighteen holes. Most of the roadways are covered with red brick and the sidewalks are covered with blue granite. The cost of the park is \$300,000 per year to be added. Macadam would cost about 50c per yard.

There is a children's wading pool with walls 15 inches high. A charge of 15 cents is made for swimming and bathing suit. All bathers must hire the park suit.

The pay roll of the Parks at present is \$2,850 every two weeks, seventy cents per hour. Last year the two weeks pay roll was \$2,750; two dollars per day for laborers. Their aim is to keep the help employed as steadily as possible. There are members on the Park Board and are elected for two years.

The Washington Park privileges nets \$200,000. The Bunn Park, \$150,000. There are two brick winder routers and one of these would be fine for Nichols Park. They are very easily built.

Thirty six thousand tulip bulbs were planted this spring, purchased from Van Hook, Inc., of Springfield, Ill. from twelve to seventeen dollars per thousand and imported from Holland. They had two feet in the ground and each in them. They were planted in cold weather in the fall.

An enclosing sketch of the tennis court. The ground should be perfectly flat with a little ridge around the court to keep the water from running off and cutting ruts in the court. Never use sand on the court as this has a tendency to grind up the earth.

The superintendent, Mr. Figueroa, was very courteous to the committee and offered many suggestions and would be pleased to lend his assistance at any time to help the park board in beautifying the city parks.

PAVILION—HIVILIDGE

Subject to the ordinary rules the park is at all times free to parties, picnics, gatherings of all sorts, and the large pavilion is for rent to the proper parties for evening gatherings. All persons or parties contemplating a gathering of any kind at the park should call on Secretary Brennan and obtain if the park or pavilion, as the case may be, is free for that occasion. It is better not to have two large picnics the same day, though

## TEACHERS NAMED IN WINCHESTER SCHOOLS

In the High School All but One are Re-Appointed — The Winchester Graduates—Personal Notes.

Winchester, Ill., May 22.—C. W. Smith has been appointed superintendent again for next year. All the high school teachers will return except Miss Clara Hirtzel, teacher of German and Latin, who tendered her resignation. Miss Olive Wells, principal of the high school, is teacher of science. Miss Mildred Hibbs, of the teacher of music, has part of the English work and Miss Ruth Zacher is teacher of algebra. E. G. Sprague has charge of the commercial work. In the grade schools, appointments are as follows:

First—Miss Sadie Townsend.  
Second—Miss Maud Sperry.  
Third—Miss Grace Thompson.  
Fourth—Miss Rhia Richardson.  
Fifth—Miss Carolyn Coultas.  
Sixth—Miss Floy Nelson.  
Seventh—Miss June Coultas.  
Eighth—Miss Alice Mudd.

High School Graduates.

A class of good size will be graduated this year from Winchester high school. The members of the class are Paul Colling, Robert Frost, Richard Riggs, Edward Sperry, and Misses Louise Townsend, Janice Taylor, Isabel Smithson, Bessie Pieper, Maurine Mader, Rosemary Moore, Bertha Moore, Olga Hieronymus, Dorothy Cox, Percis Coultas, Frances Coultas and Margaret Bates. The graduating exercises will be held in about two weeks.

Personal Mention.

Mr. and Mrs. Frank Crandell returned the first of the week to their home in Rushville. They were assisting in a piano demonstration at the store of C. M. Deane.

Mrs. Ed Hainsturther has gone to Chicago to spend a few days as the guest of her daughter, Miss Beatrice Hainsturther.

Miss Lizzie Peak is a St. Louis visitor this week.

HILLSBORO MAN GOES TO PENITENTIARY

Efforts to Secure Release of H. R. Crawford Failed—Long List of Money Irregularities Charged to Him.

Many will remember the case of J. R. Crawford, the defuncting real estate and loan agent of Hillsboro. It was a remarkable case from the fact that the man had been so fully trusted by many. The claim is that he received payments on property without giving proper credit and did many other things quite irregular. His lawyers made a stubborn fight for him but the supreme court overruled them and a short time since he appeared and threw himself on the mercy of the court and pleaded guilty to three indictments.

Judge Lett imposed a sentence of from one to ten years for each offense and the effort was then made to have the sentences run concurrently when he might get out in a year but the pardon board will have to decide that. It is said the man is suffering with Bright's disease and may not live long tho that is not positive. He wrote a long letter in defense and explanation.

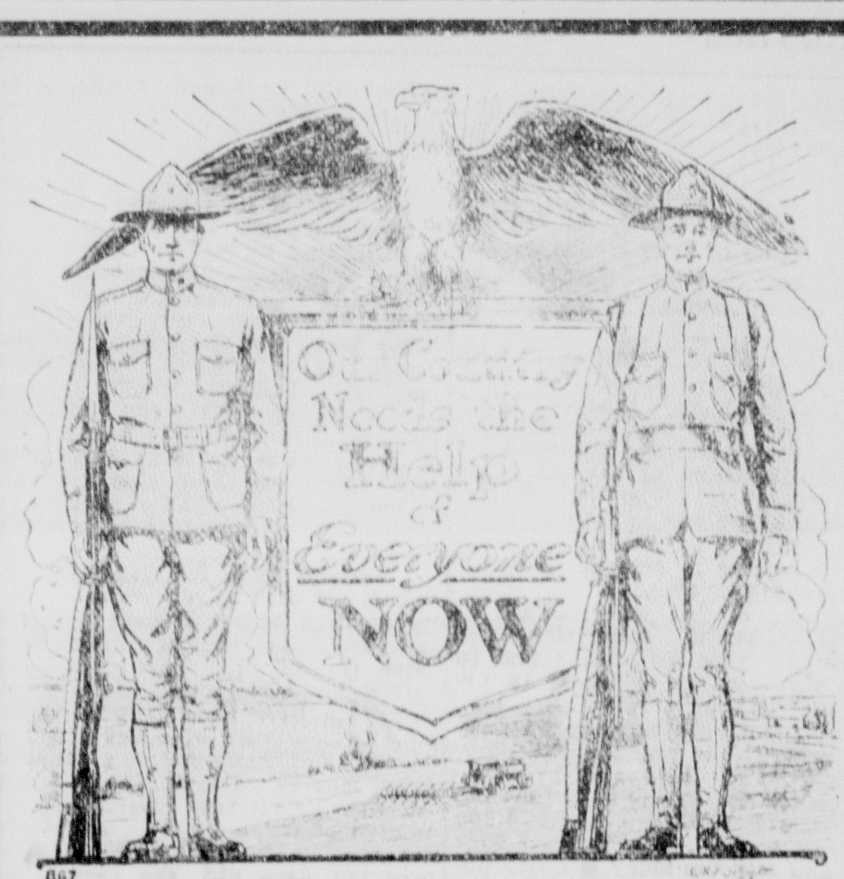

Attention Elks — initiation tonight.

VISITORS FROM SPRINGFIELD

Young John George Otto who graduated from the State School for the Deaf yesterday morning attracted quite a list of friends from the capital city. Among them his parents, Mr. and Mrs. Charles Otto, also Mr. and Mrs. George Otto, Mrs. Mary Dickens, Miss Helen Otto, Miss Isabel Otto, John McCrea, James Henry McCrea, Ernest Otto, Carl Otto, Leon Deiber, John Eitelbrink, former alderman. They were joined by Gus Reif of Decatur and in this city by Mrs. C. L. Degen and Mrs. Minnie Birkenhead.

LICENSED TO MARRY.

## YOUR EXECUTOR AND TRUSTEE

If you are undecided as to the appointing of an executor and trustee under will, let our officers explain our facilities for handling estates.

The appointment of an executor and trustee is a very important matter. The safety and interests of your heirs require that you make a wise appointment, and prudence requires that you do it now.

Competent and desirable individuals do not always willingly undertake such offices, and among those who act some move away, resign, fall ill or die. Many individuals will not know how to take the necessary precautions to safeguard an estate, and most persons have all they can do to look after their own affairs, without taking on unknown duties in unknown fields of labor.

**THE FARMERS STATE BANK AND TRUST COMPANY** deals with trusts of all kinds. It is prepared to render prompt, efficient, responsible service and invites you to consult its officers.

You Can Trust This Trust Company

## INCUBATION DISCUSSED BY POULTRY GROWERS

Paper Presented by H. A. Brewer  
at Meeting of Morgan County Association Tuesday Night—Gave  
History of Artificial Incubation

A meeting of the Morgan County Poultry Dealers Association was held Tuesday night. A paper on artificial incubation was presented by H. A. Brewer and was followed by general discussion of the very interesting subject. The text of Mr. Brewer's paper was as follows:

Incubator is a term applied in poultry raising to devices used for the hatching of eggs.

The aim of this paper is not to discuss natural incubation but rather to review the history and to bring some helpful pointers on artificial incubation.

Artificial incubation was successfully practiced in very ancient times in Egypt and China and probably other countries. Pliny says that the Egyptians hatched 100,000,000 chickens a year. The method they used and still use today is quite unique. The eggs are buried in the warm sand along the shores of the Nile river, the natives carefully turning them regularly each day. When the hatch is about ready to come off, the eggs are placed on the top of the sand and the natives are seen coming and going from the river with their water urns and sprinkling the eggs. Witnesses who have seen these operations have said that the eggs hatch remarkably well.

The methods and appliances still used in China are quite simple and even crude, but are employed with great skill and success. One of the Chinese incubators resembles a jar with a small neck. This is covered with woven fibre and carefully packed on the inside with a layer of fine fiber of some sort. A basket-work partition is placed a few inches from the bottom of the jar and the upper part is filled with eggs, the bottom of the jar being out, it is set over a small pile of charcoal which supplies the heat.

Reamur, the eminent Physiologist, used successfully a very crude form of incubator, consisting of a barrel of heating fermenting manure, but he encountered much criticism and opposition on the ground that chickens so hatched "were unfit for human food because they tasted of the heating material, and that such chickens were absolutely sterile, and if the process were persisted in, the race of fowls would necessarily die out."

Partial success with modern incubators may be said to date from the Paris Exposition of 1877, at which time Rouiller and Arnault exhibited their Hydro-Incubator. The heating apparatus of this machine consisted of a hot water tank divided into three sections, one above the other, the tanks being connected with each other by a few tiny holes. Twice each day the water in the upper tank was drawn off and it was refilled with boiling water. This gradually worked its way to the bottom tank and kept it at a fairly uniform temperature. The egg chamber was located just below the bottom tank.

Modern incubators of the automatic type are of the two main classes—hot water and hot air. The advantages and disadvantages of the better makes of the two classes are about evenly balanced. There are hundreds of different makes of incubators on the market, many of them very efficient when properly handled.

### Eggs

Nearly all forms of animal life come from eggs. In some instances, for example in man and in most domestic animals, the egg reaches its full development in the body of the mother, and the young are born living, breathing beings. In other cases, the egg, protected by a shell, is deposited by the mother and must be exposed to heat for a greater or less time before the young life within it can emerge from the shell and exist by itself.

Even tho an egg be fertile, it is not necessarily hatchable. The percent fertility is an expression that is frequently misleading. More than ninety per cent of the eggs may be fertile and yet no living chicks may come from them, because the germ is so lacking in vitality that it dies before incubation is completed. To be capable of producing a chick then an egg must not only contain the living germ, but there must be sufficient vitality to grow the chick to maturity. Lack of vitality often makes growth within the shell impossible, thus frequently causing the chicks to die in the shell. Hatchable eggs, then, are those that are fertilized and have vitality enough to insure the production of a living chick.

### Care of Eggs for Hatching

It is not safe to rely on the vitality of eggs over ten days old, yet cases have been reported where eggs three months old have produced chicks that have grown to maturity. Eggs that have been kept in a uniform temperature of about fifty-five degrees and having been turned daily, may be safely kept for about ten days. The best results may be secured however, from eggs that are not over seven days old. In eggs over ten days old, the percent of dead germs is so great that it is not profitable to incubate them.

Many poultry breeders hold to the theory that bumpy and ridgy eggs will not hatch at all, but during some recent test cases, quite a number of these eggs were incubated and quite a large per cent of them hatched, but a good many of the chicks were crippled.

Other theories have been advanced that pointed eggs will produce pullets and round eggs cockerels. In a test case some time ago fifteen round eggs that were ideal to hatch pullets, were incubated and every egg produced a cockerel.

Another theory that large eggs always produce cockerels does not work out as unusually large eggs are generally proven to be infertile, and those that do hatch, the sex is about equally divided.

Best results usually will be secured when the incubator is filled with eggs from the same breed or variety of fowls. For example, eggs from Leghorns and Plymouth Rocks will not turn down uniformly, since the shells differ in thickness and texture. Therefore, ideal ventilation for one is not suitable for the other. Leghorn eggs will hatch a few hours earlier than Plymouth Rock eggs under the same treatment.

### Incubation Periods

The incubation periods of the eggs of various fowls differ quite a little. Eggs from hens hatch in twenty-one days, those of geese and ducks hatch in twenty-eight days. Turkey eggs hatch between the twenty-sixth and twenty-ninth days, while those of Guinea hens hatch in twenty-six days.

There are slight deviations from these periods, eggs from bantams and other small breeds often hatching on the nineteenth or twentieth day of incubation, and those of some varieties of geese hatching in thirty days. The eggs of the Muscovy duck hatch in thirty-five days, the eggs of Pheasants hatch in about twenty-four days and those of Peafowl hatch in from twenty-eight to thirty days. The incubation periods of the several varieties of Swans vary from thirty-five to forty days.

The key-word to success in Artificial Incubation is carefulness. Careless methods in any phase of the work is no more or less than the construction of a weak link in the chain of success.

Each incubator manufacturer sends out a book of instructions for that particular machine, and if these rules are carefully adhered to, good results should follow. Not all incubators are constructed alike; each having its own system of heating, moisture and ventilation. The location of the thermometer is not the same in all, and while the same general principles apply alike in all, special rules must be observed in the operation of each, or failure is certain.

A good many general rules may

## HISTORY OF MEDICINE

The Morgan County Medical Society Will Be Fifty Years Old This Month.

Anyone who has information about any of the early doctors of this county, or of any Medical Meetings or Societies prior to 1866, will confer a favor by sending it to Dr. Walter Frank, secretary of the Morgan County Medical Society, 200 Ayers Bank Building, and it will be edited for this column.

SCOTT COUNTY PHYSICIANS. Originally what is now Scott County was a part of Morgan County. For this reason, the history of the History of Medicine in Morgan County the early Scott County Doctors must be included. Dr. J. M. Miner, the senior of Medicine in Scott County and one of the charter members of the Morgan County Medical Society, has furnished some interesting reminiscences of the early doctors which we will have the privilege of printing in this column from day to day. Today we present

DR. DANIEL ROBERTS. Dr. Daniel Roberts came to what is now Scott County, early in 1839. I have no data to go by, but careful inquiry makes it certain that he was the first practicing Physician in Winchester and Scott County. From legends and stories still told about him in the 4th and 5th generation, since he was here in Winchester, he must have been a very original and eccentric character. Fond of practical jokes, a genial warm hearted man and considered successful in practice.

He continued practicing medicine in Winchester until, when he removed to the state of Missouri. The last I

be followed, and the following brief rules are given merely as suggestions and reminders:

Exercise care in selecting fresh eggs from vigorous stock for the incubator.

Be sure your thermometer is accurate and the machine is properly adjusted before putting in the eggs.

Carefully turn the eggs every twelve hours, beginning on the third day and ending on the night of the eighteenth, also change the position of the trays at every turning.

Cooling and ventilating should be done according to instructions given in the book of directions. Cooling helps to soften the shells.

Keep the air in the room where the machine is running, fresh, and if the air is very dry, moisture should be added by sprinkling the floor or by placing pans of water about the room.

Be very careful in filling and trimming the lamp. See that the flame appears round, full and clear. A forked or uneven flame will cause trouble.

After the hatch the machine should be thoroughly cleaned with soap and warm water and then left open a few hours to air out. The trays should be taken out and scrubbed with a stiff brush and then given a good airing and a sun bath if possible. The sun is a good disinfectant.

Incubators cared for in a painstaking manner will give much better results and last many years longer than those receiving indifferent attention.

The best that can be hoped for in Artificial Incubation is that it will compare favorably with natural incubation. Incubators well attended to, hatch on the average about as many chicks as are hatched by hens that are equally well looked after. The incubator should not be blamed for mishaps that result from inattention or faulty handling of the machine and eggs.

When carefulness is exercised and incubators are properly managed, Artificial Incubation may be regarded as very successful.

### A JACKSONVILLE VISIT.

The writer would be glad if you would state in the Journal with reference to a paragraph appearing in today's issue under the headline, "A Pleasant Incident," that his visit to Jacksonville will ever carry happy memories for his wife and self. Nichols Park with its spring beauty and excellent golf course, the wondrous hospitality of Mr. and Mrs. Nichols and the delightful company of the Misses English, together with the joy of having met so large hearted and generous a man as Mr. Nichols of whom all Jacksonville must be proud, are the reasons.

A. W. Bennett.

### RICHARD NORTUP DEAD IN SCOTT COUNTY

Bluffs, Ill., May 22.—Funeral services for Richard Nortup, who died Saturday at his home east of Bluffs, were conducted Tuesday afternoon at 1 o'clock at the family residence. The service was in charge of Rev. J. D. Detering, pastor of the Lutheran church at Bluffs. Interment was made in the Lutheran cemetery at Neelys.

Deceased was seventy-seven years of age and was born in Hanover, Germany. He came to America at the age of eighteen years, and for a time engaged in farming.

### BURLINGTON WAY MAPS.

It is probable that the new maps of the Burlington Way for this season will be available for distribution in the course of the next week. The maps, which are now in the hands of the printer, are to be in sheet form by ten by eighteen inches and show all of the principal cities and towns located on the trail. The portion of the trail which extends from St. Louis to Chicago is known as "The Main Street," and will in all probability be the most important part of the whole trail. The longest line, known as "The Parent Trail," is that which runs from East St. Louis to St. Paul, thru this city, Burlington and Cedar Rapids. This trail is connected with at Cresco, Iowa, by one which extends from Russellville to Rock Island and Dubuque. The trail which extends from Springfield to Peoria and Belvidere will at some time in the future be still further extended to Milwaukee.

### THE WIRELESS SERVICE.

Joseph Pine, manager here for the Western Union Telegraph company has received a letter from Louis J. Schutt who was for a year employed in the local office stating that the writer had joined the wireless force in the Brooklyn navy yard. He is taking instruction in that branch of telegraphy before being assigned to regular duty. He asked that letters be sent to him care of the Naval Y. M. C. A.

heard of Dr. D. Roberts was in 1864. Some of the Boys of the 14th Ill. regiment were captured at Moon Station, Georgia by the Rebels, among them Oscar Brengle, son of Dr. D. D. Brengle of Winchester.

After the prisoners were corralled, Oscar Brengle says an old man with slouch hat on his head and long gray hair reached to his shoulders, rode up before the prisoners and said, "I understand a son of Dr. Brengle of Winchester is among you; I want to see him." Oscar stepped forward (Oscar was very small, only 5 feet, 5 inches), and said I am his son. Dr. Roberts (now he was the old man) looked at him a moment and said, "Well, the North is certainly robbing the cradle for soldiers." "Yes," said Oscar, "and from your looks, the South is robbing the grave."

After many inquiries about Winchester people, he kindly offered Oscar money and said, "Come with me." Some time in the early '30s Dr. Roberts built a large double log cabin, a few blocks south of the square in Winchester. N. M. Knapp bought the place and built the residence on the site of the old one now known as the Henry Miller place.

## SOCIAL EVENTS

### Daughters of Pocahontas

Initiate Candidates. Minnetonka Council No. 71 Daughters of Pocahontas at the regular meeting Tuesday evening conferred the degrees of the order on three candidates. Following the initiation a social hour was enjoyed and refreshments were served. The committee in charge of refreshments was composed of Mrs. Mary Seymour, Mrs. Schildman and Mrs. Sarah Seymour. The candidates were: Mrs. Azella Casey, Mrs. Mary Eaton and Mrs. Zoe Killam.

### Rev. James Caldwell Chapter in Last Regular Meeting.

The Rev. James Caldwell chapter, D. A. R., held the last meeting of the year Tuesday afternoon at the home of Mrs. C. C. Phelps, 1236 West College avenue. Mrs. Kate Irlam Davis' report of the national convention was heard with interest by the local members of the chapter. Mrs. A. Wehl sang, to accompaniment by Mrs. W. D. Roberts and violin obligato by Miss Mabel Forrester. After the program a social hour prevailed.

Plans have not yet been completed for Flag day, which will fall upon June 14, altho the present crisis will make the observance this year of more than usual significance.

Miss Georgia Osborne, sister of Mrs. Phelps, was present as a guest. She gave an interesting account of the lines of activity pursued by the Springfield chapter.

## MATRIMONIAL

Fernandes-Myers. Mr. and Mrs. Harry Fernandes have returned from St. Louis where they were married by Rev. Mr. Scott a St. Louis pastor. The bride, who was Mrs. Dorothy Davis Myers, has for the past few months been making her home with her sister, Mrs. Rogers of Tulsa, Okla. The couple will reside for the present with the father of the groom, Simeon Fernandes, 620 North East street. Mr. Fernandes has employment with his father in the coal and contracting business.

## WITH THE SICK

Miss Lila Roberts, who recovered recently from an operation for appendicitis, is again at her place as assistant to Dr. E. D. Canatney in the Ayers Bank building.

## BIRTH RECORD

Born Monday evening to Mr. and Mrs. J. E. Devlin of West Michigan avenue, a son.

### REGARDING NICHOLS PARK

Everybody who sees Jacksonville's playground two miles south of the city is loud in praise of its rare beauty. Surely it never looked quite as beautiful as at present. The flowers are many of them in luxuriant bloom and the lawn is lovely under the careful attention of the custodian, Dan Kelly. The lawn and park in general are in good and well kept condition.

The attention of the public is called to a few matters. Sunday a number of persons were caught stealing flowers and breaking the blooming shrubbery. The custodian and policeman have orders to arrest any one detected in stealing flowers or any way mutilating or injuring trees, shrubbery or any kind of growth.

There are several loose boys and boys are in the habit of taking them to hunt golf balls and endangering the lives of the occupants. Hereafter all persons having boats on the lake must supply a strong chain and lock their boat to it when not in use. Don't forget this.

Dogs must absolutely be kept out of the park. There are some rabbits which are quite tame; birds are becoming frequent and must not be disturbed.

### DANCE AT FRANKLIN.

A dance will be given tonight at Marquette hall, Franklin, in honor of Mr. and Mrs. Frank Ryan, who are to be married in Jacksonville this morning. As mentioned before the marriage of Mr. Ryan and Miss Irma Kepler will be solemnized at 8 o'clock at the Church of Our Savior.

Miss Jeanette Foreman and Walter Ealey have returned from a visit with Miss Foreman's brother, Edwin Foreman, in Bloomington.

## MOTORIZATION PLANNED FOR FIRE DEPARTMENT

Commissioner Martin Explains what New Equipment Will Mean to City in Better Protection—Plan Means Economy Also.

In accordance with the action taken by the city council last Monday an election is soon to be called to give the people of Jacksonville opportunity to vote upon the issuance of bonds to the extent of \$17,000 for the motorization of the fire department and \$23,000 to cover the Morrissey bond shortage. The propositions will come up at the same election but upon separate ballots.

In a statement yesterday as to what the proposal to motorize the fire department means, J. Edgar Martin, commissioner of public health and safety, had this to say: "The \$17,000 I have suggested as the sum with which we can motorize the fire department is not sufficient of itself to pay the cost, but I am taking into account the fact that now we have six horses, one engine and a hose reel which can be disposed of. I estimate that the sale of these horses and equipment will total between \$2,000 and \$2,500, and this, added to the sum which would be available from the bond issue would provide the necessary sum."

### Would Reserve No. 1 Engine.

"I do not propose to dispose of the newer fire engine we now have in the department known as No. 1, but would keep it in reserve. The equipment to be secured if the bond issue is approved will include one six-cylinder pump with a chemical tank and hose body. This engine will have a pumping capacity of 750 gallons per minute. We would purchase also two motor trucks with chemical tanks and hose bodies, each of these having a capacity of delivering 350 gallons per minute. The larger and better engine which we now have in the department will be kept in reserve and it has a pumping capacity of 750 gallons. Our equipment supply would be such that even with a fire in progress, one truck could be held in reserve in the department, to be available for any second call. This rule would be observed continuously except in the case of a big fire on the square, when the three trucks and steam engine, four complete pumping outfits could be used and with pumping in progress at both north and south side stations they could deliver twelve streams of 2 1/2 inch size at one time. This would mean 2,250 gallons a minute thrown on a burning building."

### No Necessity for Keeping Horses.

"All the motors will have a draw bar attachment so that any one can be utilized for pulling the old engine and thus obviating the necessity of keeping any horses in the department. The motorization change aside from vastly increasing the efficiency of the department, will also effect a saving. It is now costing to maintain six horses at the department from \$1600 to \$2,000 per year. This covers the cost of maintenance, veterinary bills and the losses occasioned by exchanging or purchasing horses. The advantage of motor power over horses in the matter of speed is very plain when you consider what is now required from horses. The engine we now draw with two horses weighs 9500 lbs. and it is possible in going a short distance for them to maintain a speed from 15 to 18 miles an hour. This service is the same as would be required if a team of horses were made to gallop along the street with a load of coal weighing five tons. The speed of motor trucks such as we would use, at the high point is 50 miles an hour. Up grade and with conditions not favorable I am sure that we could make a run to the western limits of the city or to the high ground in the third ward in four minutes. It is prompt arrival which prevents many serious fire losses."

### Fire Losses Materially Reduced.

The experience of most of the other cities with motorized fire equipment have been very satisfactory and the percentage of fire losses have been materially cut down by comparison with the days when the old type of equipment was used. If there is any question as to the feasibility of using motor equipment on paved streets that should be forgotten because the power of one of these motors makes it possible to go thru streets where any four horses could pull the hose wagon now in use.

"I have carefully worked out all the plans for the motorization of the Jacksonville fire department and I am sure that the council is suggesting the best changes to make—changes which, as I have said before, will greatly increase the efficiency of the department and at the same time cut down the cost of operation. These proposed changes are of a kind which have the approval of the insurance underwriters and the motorized equipment will have a large effect in preventing the threatened increase of insurance rates unless something is done to improve local conditions."

MR. STONE RE-EMPLOYED. Charles A. R. Stone, formerly principal of Jacksonville high school, has been re-engaged as superintendent at Munhall, Pa., at an advance in salary. Mr. Stone has hitherto been high school principal at Munhall but this year the position of city superintendent was created and he was promoted to that position.

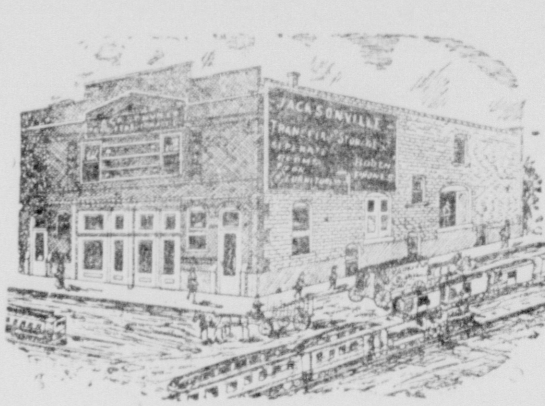

### TELEPHONE CO. IMPROVEMENTS

The Illinois Telephone Co., has installed new lights in the operators' room and the toll room. The lights are of 100-watt power and are a great improvement in the telephone office equipment.

Miss Alice Arthur of Beardstown is visiting her sister, Mrs. Reba Williams for a few days.

INTERESTING MEETING  
AT JEFFERSON SCHOOLParent-Teacher Association of the  
First Ward Brings to a Close the  
Work of a Successful Year

In more than one respect the closing meeting of the Parent-Teacher association of the First Ward, held Tuesday afternoon at the Jefferson school building, was a notable one. Drills and musical exercises exemplified by the children commanded the attention of all. Exhibits of manual training and sewing were a feature. The social hour which followed the program was full of pleasure for each of the many parents and friends in attendance. References made to the work of the year just past brought out the fact that the association has spent a term of useful activity.

The new officers elected:  
President—Mrs. J. W. Rhoads.  
Vice president—Mrs. F. A. Kaula.

## A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame back, rheumatism and irregularities of the kidneys and bladder in both men and women. Regulars bladder trouble in children. It not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for sworn testimonials. Dr. E. W. Hall, 226 Olive St., St. Louis, Mo. Sold by druggists—(Adv.)

Bring In Your  
PANAMA and STRAW HATS  
—for—  
CLEANING and  
BLOCKING

We make old hats look like  
new. It's your chance to  
economize.

JOHN CARL  
Jacksonville Shining  
Parlor  
North Side Square

Secretary and treasurer—Mrs. George W. Ingund.  
Mrs. John Pires, retiring president, called upon the association to support Mrs. Rhoads with the same spirit shown toward her. The new president responded happily and Miss Clara C. Cobb, principal of the school, made a talk in which were mentioned the excellent prospects for next year's work.

The Program Numbers  
The numbers given by the children were especially well received. They were as follows:

Group of songs—first grade pupils of Miss Loneragan.  
Wand drill—second grade girls taught by Miss Shannon.  
Dramatized story—fourth grade pupils of Miss English.

Group of songs—Miss Shannon's third grade pupils.  
Lumb bell drill—boys of the fifth and sixth grade.

Songs—sixth grade pupils of Miss Mustfield.

Music—fifth grade pupils of Miss Yeck.

Encouraging report was made by the committee appointed to aid children with defective eyesight. Several cases wherein parents were unable to supply glasses were helped by the association. It was voted to purchase a china cabinet for the dishes owned by the association. For his many services Mr. Angel, the janitor, was tendered a vote of thanks and given a box of cigars, as a token of appreciation. The report of the treasurer showed a good balance to the association's credit.

The report of the nominating committee was presented by Mrs. James Green. The sewing exhibition was in charge of Miss Edith Johnson, teacher of sewing in the city schools. Miss Josephine Yeck has charge of the manual training work at Jefferson school.

Galli-Curci, soprano, and Rudolph Ganz, pianist, in joint recital May 30th, in State Arsenal, Springfield. Reserved seats on sale at J. P. Brown's Music store, Jacksonville, Ill. Tickets \$1.00.

Clement R. Kirby, son of Capt. W. A. Kirby of this city, is now in an officers reserve corps camp in Texas preparing for active duty. He had experience in the Spanish-American conflict so that he is not wholly new to the service.

REGISTRARS ARE NAMED  
FOR MORGAN COUNTYSHERIFF GRAFF HAS ANNOUNCED  
APPOINTMENTS FOR THE  
SEVERAL PRECINCTS

Each Registrar Will Secure Necessary Clerks—Booths Must Be Open From 7 A. M. to 9 P. M. June 5th—Final Regulations Under Which Registration Will Be Conducted Received Tuesday

Sheriff Grant Graff Tuesday received the final registration regulations prescribed by the president in connection with registration day Tuesday, June 5. The sheriff, who has named registrars for the several voting precincts of Morgan county, will at once forward to each one of these officials a copy of the registration regulations together with various cards of rules and instructions which he has received.

The requirement is for a polling place in each voting precinct, the booth to be open from 7 a. m. until 9 p. m. This will mean a stretch of fourteen hours' service for each registrar as under the law he is required to remain in the booth the entire day and have his meals brought to him. This rule does not apply where more than one registrar is secured from the precinct. The law also provides that registrars may be paid \$4 for their services, and in case of registrars who offer their services without charge they may be sworn in and assigned to precincts where they are most needed. Each registrar is required to take the oath which is printed herewith. Registrars who do not demand pay are to have their names sent to Washington for "credit."

Sheriff Graff has named the registrars who will serve and they are expected to secure the services of three clerks to assist them in their work. The registrar is held directly accountable for the record as taken in his precinct. The lists compiled from the day's work will subsequently be turned over to the registration board, which consists here of Sheriff Graff, county clerk, and Dr. W. H. Weirich, county physician. In nearly all instances the usual voting booths will be used. However, changes have been made in numbers 2 and 12. No. 2 has usually been held on North Main—eastern street but the building is occupied and so a voting booth will be arranged at the police station in the city building. No. 12 will be at the Morton school house on Morton school house on Morton avenue instead of at the residence of T. C. Phelps on South East street.

THE NAMES OF REGISTRARS

The names of registrars appointed by Sheriff Graff are listed below. Part of the notification work was in the hands of Chief of Police Dr. J. H. Davis.  
Jacksonville No. 1—Jed Cox.  
Jacksonville No. 2—Capt. P. C. Taylor.  
Jacksonville No. 3—Frank Baker.  
Jacksonville No. 4—J. H. Dill.  
Jacksonville No. 5—Charles R. Graff.  
Jacksonville No. 6—Charles S. Black.  
Jacksonville No. 7—Roy Lawson.  
Jacksonville No. 8—W. H. Dilton.  
Jacksonville No. 9—E. C. Tonn.  
Jacksonville No. 10—Byron C. Graff.  
Jacksonville No. 11—J. W. Catherwood.  
Jacksonville No. 12—M. L. Hildreth.  
Alexander—Harry L. Dierup.  
Woodson—Ed. Bradley.  
Litchberry—Willard Young.  
Murrayville—C. J. A. Wright.  
Meredosia—Charles James.  
Sineclair—Lee Siler.  
Concord—Henry Williams.  
Lynchville—J. O. Parker.  
Prentice—J. H. Hubbs.  
Pigach—W. E. Barrows.  
Markham—M. E. Clever.  
Waverly No. 1—George Kimber.  
Waverly No. 2—Robert Etter.  
Chapin—J. T. Holliday.  
Northville—Frank Hingerford.  
Centerville—Arthur Rowland.  
Franklin No. 1—Fred Pugh.

QUESTIONS TO BE ANSWERED

The main questions on the registration cards are as follows:

1. Name in full. Age in years.  
2. Home address.  
3. Date of birth.  
4. Are you (a) a natural born citizen; (b) a naturalized citizen; (c) an alien; (d) or have you declared your intention to become a citizen? (Specify which.)  
5. Where were you born?  
6. If not a citizen, of what country are you a citizen of?  
7. What is your present trade, occupation or profession?  
8. By whom employed? Where employed?  
9. Have you a father, mother, wife, child under 12, or a sister or brother under 12 who is solely dependent upon you for support? (Specify which.)  
10. Married or single? Race?  
11. What military service have you had? Rank? Branch? Years? Nation or state?  
12. Do you claim exemption from draft? Specify grounds.

Referring to these questions and the manner in which they should be answered, the instructions to registrars contain the following suggestions:

SUGGESTIONS TO REGISTRARS

First question—Write or print the name clearly.  
Second question—No instruction.  
Third question—Persons are not expected to have in mind the year of their birth. Ask "When is your birthday?" Then say "How old will you be on or about your next birthday?"  
Subtract the answer from 1917 for the year of birth.

Fourth question—This question requires care because some people will not understand it. Familiarize yourself very perfectly with the rules. Do not write down the answer until you are sure of the answer. Registered understand what is being asked.

Fifth question—This question will become important in deciding exemptions clearly and beyond doubt.

Sixth question—This question is especially important because it is desired to know the number of alien enemies of military age in the United States. All "aliens" from countries with which we are at war, including all "debarred" who are citizens of a country with which we are at war, are alien enemies.  
Seventh question—The Nation is much interested in knowing the occupational classes accurately. It is especially important to get the answers of persons described in 4 of the instructions recorded in the terms here described.

Eighth question—No special instructions other than those in "Instructions how to answer questions."

Ninth question—Same as 8.

Tenth question—In specifying race, remember you are not specifying nation. Do not say "Chinese," say "Mongolian"; do not say "Filipino," say "Malayan"; do not say "German," say "Caucasian."

Eleventh and twelfth questions—Study carefully the instructions; no other further instructions to registrars.

OTHER POINTS IN RULES  
Referring again to registrars the regulations set forth that such officials should be competent, sober, honest, and that they will indicate upon every registration card answers that I know to be untrue, and that I will truthfully answer and record matters charged to my own observation.

## REGISTRAR'S OATH

I, \_\_\_\_\_, do swear that I will faithfully perform the duty of Registrar of Precinct \_\_\_\_\_ City or \_\_\_\_\_ State of \_\_\_\_\_ County \_\_\_\_\_ that I will correctly record the answers given me by persons registered; that I will indicate upon every registration card answers that I know to be untrue, and that I will truthfully answer and record matters charged to my own observation.

(Signature of Registrar)

Subscribed and sworn to before me this \_\_\_\_\_ day of \_\_\_\_\_, 1917.

Notary Public (or other officer authorized to administer oaths)

EFFICIENCY CAMPAIGN  
AT LYNNVILLE CHURCHJames N. Scofield Coming to Aid  
Rev. L. R. Cronkrite in Week of  
Special Services.

A campaign for church efficiency has been planned for the Christian church at Lynnville continuing from May 29 to June 3. The pastor, Rev. L. R. Cronkrite, in connection with the official board, has arranged for the coming of James N. Scofield to conduct this campaign, which is termed "A booster week for older boys and men, with special meetings for women and girls and mass meetings for all." Mr. Scofield was for eight years general secretary of the Bloomington Y. M. C. A. and while there outlined the "Scofield system of organization," which has proven successful in a number of instances. Subsequent to his Bloomington experience Mr. Scofield was organizer for evangelistic campaigns and was very successful in that work in a wide territory.

Those most familiar with this man's work are the most enthusiastic about it, so that the Lynnville Christian church people feel fortunate in having secured him for these special services. The general theme will be "Why the Average Man of Today is Only Fifty Percent Efficient." The program is outlined for the week as follows:

Tuesday, May 29.

8:00 p. m.—Mass meeting. Subject, "Values."

Wednesday, May 30.

7:00 p. m.—Church Supper.

8:00 p. m.—Mass meeting. Subject, "Teen Age."

Thursday, May 31.

2:30 p. m.—Women and Girls. Subject, "The Boy and Girl."

8:00 p. m.—All men (21 and over). Subject, "The Master Key of Power."

Friday, June 1.

8:00 p. m.—Mass meeting. Subject, "Dead Sure."

Saturday, June 2.

7:00 p. m.—Boys (12 to 15). Subject, "Heroes."

8:00 p. m.—All young men (16 to 21). Subject, "Play to Win."

Sunday, June 3.

10:30 a. m.—Mass Meeting. Subject, "The Modern Sunday School."

6:30 p. m.—Young People's Meeting. Subject, "What Can I Do?"

7:30 p. m.—Mass meeting. Subject, "Two Conversions."

SENIOR EXPRESSION STUDENTS IN RECITAL

Large Number Assemble at Woman's College to Hear Miss Hazel Ingram and Miss Anne Floeth in Graduating Program.

The graduating recital of Miss Hazel Ingram of Mt. Sterling and Miss Anne Floeth of this city, members of the School of Expression, Illinois Woman's College, was witnessed Tuesday evening by an appreciative congregation of large proportions. The numbers were given in a manner which redounded alike to the credit of the students and to the training received by them in the expression department.

THE PROGRAM

"The Prince Chap" by Edward Pele.

Hazel Vivian Ingram.

"The Dawn of a Tomorrow" by Burnett.

Anne Floeth.

The first, a comedy of modern English life, was given by Miss Ingram in very pleasing voice and with excellent power of characterization. The second, a cutting from the well known story, was a prose selection of heavy conception. The contrast between the man "down and out" and the diminutive being, "Glad," who brought him from the depths of despair, was brought out by Miss Floeth with a fine ability.

After the recital friends of the graduates were received in the rooms of department by Miss Margaret Constance, director of the school, and Miss Millicent Howe, instructor.

NEW "CRIMSON J" AT THE HIGH SCHOOL

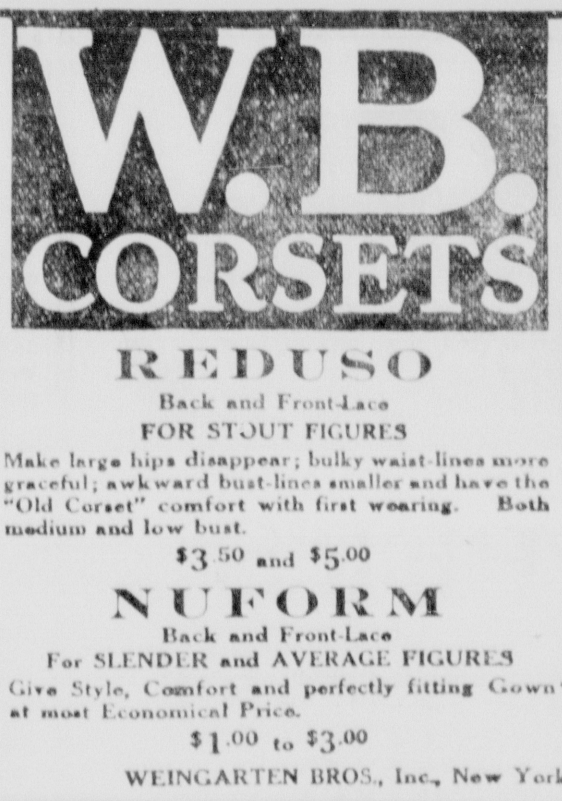

Tuesday saw the issue of the 1917 Crimson J at Jacksonville high school and inspection of the publication discloses the fact that the staff kept in mind the idea of novelty as well as beauty. There is nothing of the hackneyed about the volume, bound as it is in purple and gold, colors of the senior class, and well filled with news and well arranged matter pertaining to high school life. Following are the staff.

Editor-in-chief—John Badger.  
Assistant editor—Miss Margaret Irving.  
Business manager—Roy Sorrells.  
Senior editor—Miss Cora Cherry.  
Athletic editor—Homer Reynolds.  
School organizations—John Fortington.  
Class editor—Miss Laura Smith.  
Faculty advisor—Miss Sophronia Kent.

Miss Alice Shields has taken a position with the F. E. Compton Co., a well known publishing house for whom several excellent young women of Jacksonville are at work. Miss Shields went to the Chicago headquarters to begin her work.

J. P. Crowe is a business visitor in Chicago.

must be citizens of the U. S. and residents of the precincts for which they are appointed. Persons who have lived long enough in these precincts to be well acquainted with the inhabitants thereof. Police officers of any grade or class are required to render every assistance in the execution of this law. It is especially made the duty of such police officers to make persons within the designated ages have registered and to report those who have not registered to the proper board for such action as may be necessary. The pamphlet containing the registration regulations is one of twenty-seven pages and a glance at it is sufficient to show that the registration board and the registrars have a large amount of important work facing them.

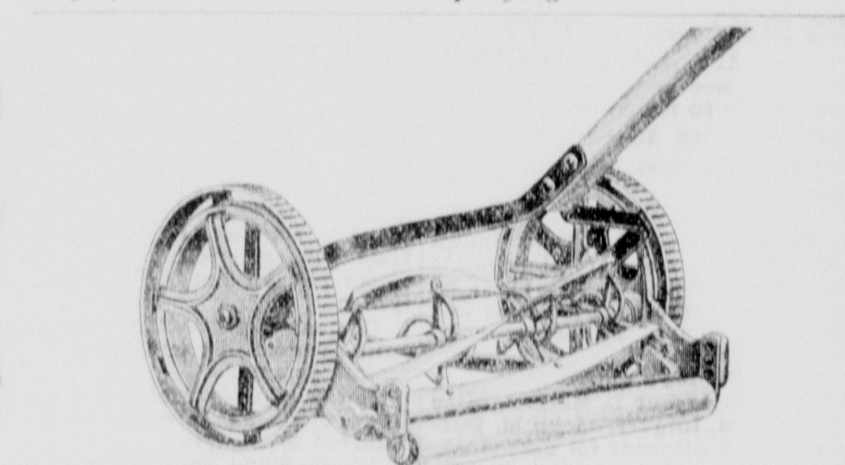

A Reliable Preventive and Remedy  
for White Diarrhoea, Cholera, Roup, Gapes, Limber  
Neck and other poultry diseases, and is guaranteed when  
used according to directions to do all we claim for it.  
CHICKTONE is a promoter of health.

## Hall Bros.

IMPLEMENTS and BUGGIES

Garden Tools; Galvanized Ware for poultry; Blatchford's Calf Meal; Cow Peas; White Clover; "Corona Dry"; Arsenate of Lead for spraying.

## Lawn Mowers

PENNSYLVANIA—Strictly first class quality, material, workmanship and finish. Long life and easy running.

ADMIRAL—Only self-adjusting and self-sharpening, ball bearing mower made. Positive shear cut the whole length of the bottom knife.

A Perfect Combination  
for Comfort

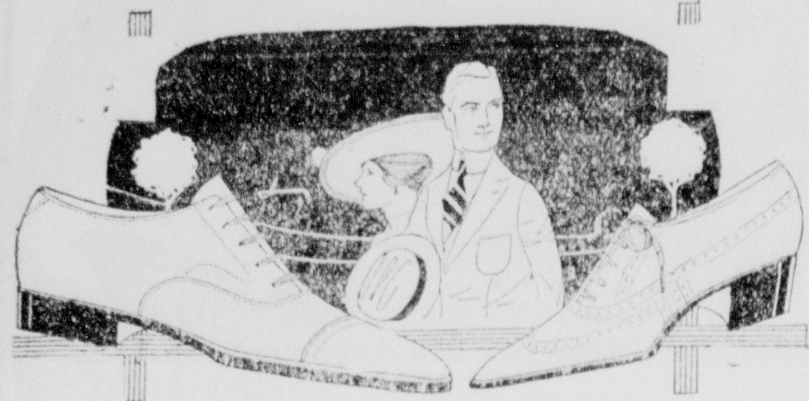

Convert Your Sun-Exposed Porch Into a Cool, Airy Retreat—

—With Aerolux Ventilating Porch Shades you can easily convert your sun-exposed porches into cool, airy, secluded, out-door rooms, where you can read, or rest or entertain in delightful comfort—even on hottest days—or sleep on summer nights.

—With a Crex Grass Rug and set of Veranda Furniture, your porch will be complete.

We call your attention to the clean cut showing of low shoes, pleasing in design, up-to-date style and superior workmanship make our offerings particularly desirable.

We want the privilege of going over our offerings with you; we can show you something to your liking.

#### TWO PLEADED GUILTY IN CIRCUIT COURT

Edgar Zirkle to Serve Term for Forgery—Charles Brannum Goes to Pontiac—Various Chancery Orders.

In the circuit court Tuesday Judge Smith presided and several people's cases were called and two pleas of guilty were entered and sentences imposed by the court. The orders made follow:

##### People's Cases.

People vs. Arthur L. Morgan, alias A. L. Morgan, forgery. John M. Butler appointed attorney for defendant.

People vs. Edgar Marc Zirkle, alias J. H. Brown, forgery and uttering. Defendant entered plea of guilty and was sentenced to the penitentiary at Chester for an indeterminate term of not less than one year nor more than fourteen years, until discharged by law.

People vs. Charles Brannum, grand larceny. Defendant entered plea of guilty and was sentenced by the court to imprisonment in the reformatory at Pontiac for a period of not less than one year or more than ten years, until discharged by law, and to pay the costs in this case.

##### Law.

Ellen H. Cook vs. John P. O'Neill, appeal from J. P. Jury returned verdict for plaintiff and assessed defendant \$110 and judgment on the same and for costs.

Oliver A. Hamm vs. Ernest Clark, trespass. Motion by defendant for continuance. Motion allowed at his costs for this term.

##### Chancery.

Mary Charlesworth, et al., vs. Joseph P. Charlesworth, bill for partition. Defendant called and makes default and cause referred to master. George P. Brown vs. Felix G.

Brown, et al., bill. Leave to amend bill by making James F. Brown a complainant instead of a defendant. Bill so amended.

People of the State of Illinois vs. John Frank, et al., bill. Report of master and findings filed.

Gates Strawn, administrator, vs. James N. Green, et al., foreclosure. Bond of receiver in the sum of \$500 filed and approved, with Otto F. Buße and William G. Goebel as surety.

Herman E. Barrett vs. Hattie Barrett, divorce. Defendant called and makes default.

Harry K. Chenoweth vs. Henry T. Gray, et al., bill to quiet title. Cause referred to master.

Myrtle Flinn vs. Grover C. Flinn, divorce. Evidence heard and decree granted.

Galli-Curci, soprano, and Rudolph Ganz, pianist, in joint recital May 30th, in State Arsenal, Springfield. Reserved seats on sale at J. P. Brown's Music store, Jacksonville, Ill. Tickets \$1.00.

#### POTATOES VALUABLE

##### BUT WILL BE LOWER

A gentleman was remarking yesterday that he knew of a man who had offered to contract to deliver potatoes by the end of July at \$1.50 and another who had offered to deliver a new crop at \$1.25 by the first of August. A great acreage has been planted and the costly spud may be much nearer the ordinary individual by fall.

R. D. Rimbey of Murrayville was attending to business matters in the city yesterday. He says his wife is greatly afflicted with rheumatism and is quite a sufferer.

#### COMMENCEMENT DAY AT SCHOOL FOR BLIND

Five Awarded Diplomas for Work Done—Supt. H. A. Perrin Made Principal Address.

Five young men received diplomas at the State School for the Blind yesterday and listened to an address by H. A. Perrin, superintendent of the Jacksonville schools. The diplomas were presented by Supt. H. C. Montgomery to the following graduates:

Roy D. Brandon, Jacksonville. Nathaniel P. Miller, Bloomington. Hobart G. Stevenson, Woodlawn. John L. Whitten, Granite City. Carl C. Wiley, Vienna.

The year has been one of satisfactory work at the school and all of the young men who have thus finished their course have made excellent records. The chapel had been decorated with flags for this occasion and these decorations were especially appropriate in view of the patriotic reference in the address of Mr. Perrin and as he closed with Wilbur Nesbit's lines "Your Flag and My Flag." As is usual in graduation exercises at the school, music and an important place on the program. The senior chorus sang "The Song of the Spring," with Mrs. Nettie McDougall James at the piano. The invocation was by Rev. M. L. Pontius and then Miss Johanna Crowley played a piano number, MacDowell's Polonaise, Op. 46, No. 12. With Miss Wood as accompanist Ora Dempsey sang as a solo, "The Mighty Deep." After Mr. Perrin's address came an organ number, Gullman's March in F, by Miss Marie Shaffer, and the final number of the splendid musical program came when the senior chorus sang a selection from Frederic Cowen's "Rose-Maiden."

Mr. Perrin's theme was "The Awakening," and he laid special emphasis upon the idea that the world now asks for thoughtful performance of duty. He said that years ago that in stenography and in mechanical trades that mechanical service was all that was expected, but that now ideals of service had greatly changed and that workers in every line were successful as they sought to bring thoughtful perfection into every duty. Some years ago graduates from schools and colleges frequently went out into the world with heads full of acquired knowledge but without this knowledge connected with heart and hand. Today the world knows that there must be intimate connection of head, hand and heart if real success and service come.

##### Life Made up of Ideals.

In the earlier part of his address Mr. Perrin said that life is really made up of ideals, whether or not they are recognized. He said that no one recognized that thought more beautifully than did Nathaniel Hawthorne years ago when he told the story of "The Great Stone Face." This story, so long familiar in American literature, relates how a lad in a New England town sat on his mother's knee and heard the legend of the great stone face, a gigantic face which appeared upon the mountain side, wrought from rocks and boulders and the overhanging earth. It was the belief of the people in the village nestled in the nearby valley that some day a great man who had been born in that village would come back laden with honors and that the lineaments of his face would be such that it would be comparable with that upon the mountain side.

The little boy in the story watched thru wistful years of childhood for the coming of such a man. At various periods in life there came men, natives of the village who had won honors and fame because of wealth or literary attainments. But there was always something to mar and to prove that they did not fulfil the legend and did not measure up to the benign features of the great stone face. When the little boy had grown to old age, having maintained thru all the years a beautiful spirit, purity of life and having made some place for himself in the literary world, it was suddenly revealed to the people that in their very midst was the man who had so lived and wrought that his face had come to shine forth in a way similar to that which had made the face upon the mountainside so glorious.

##### Selfish Life not Worth While.

It was in this comparatively simple tale that Hawthorne sought to show the influence of an ideal. "Today," Mr. Perrin said, "we are now recognizing as never before that no life is worth while which has much of selfishness in it. The story of King Midas tells us that he acquired the faculty of turning everything into gold and it was only after he came to a realization that supreme selfishness was ruling his life that his beloved daughter, who had turned to gold, was restored to him in flesh and blood. Thus he came to recognize the folly and the sin of selfishness."

"In answering the question as to what training and knowledge are worth while, Spencer once said that the first essential training must be for action which will lead to self-preservation. This means that man originally had need to be prepared to preserve himself from the attacks of animals or from other men, Spencer then laid down the second principle, that man must not only preserve himself but must provide means of food, clothing and shelter so that this self-preservation may continue. Certainly this is not the sole aim of education but if one can be educated no further than in learning to make a living for himself and the members of his family, even that is worth while.

##### Should Know How to Play.

"Then another purpose of education after self-preservation and the ability to continue that self-preservation, is mental and moral equipment for the training of children. They must be trained to recognize their duty to themselves and to their fellows. We all need training as to how best to use our spare time, and

#### "EXPERIENCE" DREW BIG AUDIENCE TO GRAND

Hobart Morality Play Handles Difficult Theme With Splendid Judgment

"Experience" presented at the Grand Tuesday evening proved to be one of the best attractions ever seen in Jacksonville.

Experience runs the gamut of human emotions in a most vivid manner. It is a subject of vast possibilities and one which could be handled in a manner to make it repulsive to the auditor. Mr. Hobart handles the theme with excellent judgment. The panorama of life in its stern reality is placed before one in a manner seldom, if ever, approached before. Many of those in the audience had traveled many portions of the "Primrose Path," down which the author made Youth walk Tuesday evening. They have flirted with pleasure and tasted of the other diversions that were portrayed. And, as in the final ending ambition which had been thought dead was only sleeping, and came forth again to lead youth with the experience gained into the field of battle with renewed courage.

But too often ambition really dies. Too often despair prevails and then comes death or poverty in its last degree. Experience is a hard but good teacher. Experience as shown Tuesday evening cannot help but bring good results to those who see it.

The play was shown with splendid scenic effects, the Corridors of Chance, The House of Last Resort and The House of Lost Souls being especially effective.

Experience with all of its beautiful stage settings and its splendid theme and good lines could be very bad if not interpreted by players of ability. After so many days and weeks of moving pictures in which one must imagine for the most part what the actors are saying, it was good to hear the human voice again. Nothing has the power to stir the human emotions as does the voice. In the portrayal of Youth Conrad Nagel proved an actor of splendid ability. Mr. Nagel is possessed of a magnificent speaking voice and the carrying one of the heaviest roles ever assigned to an actor he never failed at any time to rise to every requirement.

Especially true was his work in the closing scenes in The Corridors of Chance, in the House of Last Resort and in the Street of Forgotten Days. He was ably assisted by Edmund Elton who played the role of Experience. Mr. Elton was especially strong in the scene in the House of Lost Souls.

Finally as played by Florence Flinn made a strong character. Miss Flinn won the approval of her auditors in her work with Mr. Nagel in the House of Last Resort. The other members of the cast were equal to all the demands made upon them.

For Sale—On next Monday, Tuesday and Thursday, from 9 to 11 a. m., handsome walnut book case, walnut side board, Flemish oak extension dining table and linen cabinet. 316 Woodland Place.

#### ENCYCLOPEDIA ISSUE OF INDIA PAPER NEARLY GONE

So scarce has the supply of India paper become since the war that H. E. Hooper, president of the Encyclopedia Britannica, in a letter cautions prospective buyers of the sets who wish to have them on India paper to place their orders before Saturday.

President Hooper's letter contains an interesting reference to his first experiments with the India paper, which has now become so profitable that Hooper questions whether the publication of the encyclopedia on thick paper can ever be made a commercial success.

Hooper arranged for the entire editorial organization which created the new Encyclopedia Britannica. When the work was ready for publication in England and in the United States, he ordered the books issued in two forms—one printed on thick paper, which was the usual form in which the volumes had always appeared previously, and one on India paper.

Many friends of Hooper in the publishing world laughed at the idea. Hooper argued that the use of the remarkably thin India paper would so reduce the bulk of the volumes that people could hold and use them without any undue exertion, just as they can use other books. The idea was an experiment and nobody cared to predict the success.

The public decided the question for Hooper. The company records showed that 97 per cent of the subscribers purchased the volumes on the India paper and the remaining 3 per cent bought the thick paper volumes. This 3 per cent was represented by libraries.

#### Attention Elks — initiation tonight.

Miss Margaret Ryan of Franklin helped swell the list of city arrivals yesterday.

I believe in the statement often made that one of the greatest needs of the people of today is to learn how to play. Recognition of that need is shown in the parks and playgrounds of our cities and in the directed play in our schools, kindergartens and playgrounds.

"As a final word to these graduates I would like to impress upon them that the world today demands thoughtful performance of duty and that merely mechanical service must be subordinated."

With appropriate words of counsel, Supt. Montgomery then presented the diplomas to the graduates and the interesting exercises closed with the benediction by Rev. Mr. Pontius.

## Special Introductory!

### Roxford Blue Diamond Athletic "Woven Fabric" Union Suits

By concession of the Roxford Knitting Co., of a nation wide publicity conducted by them we are permitted for a limited time to sell the Roxford Union Suits at the following prices.

First Union Suit \$1.00, 2nd. Suit 50c

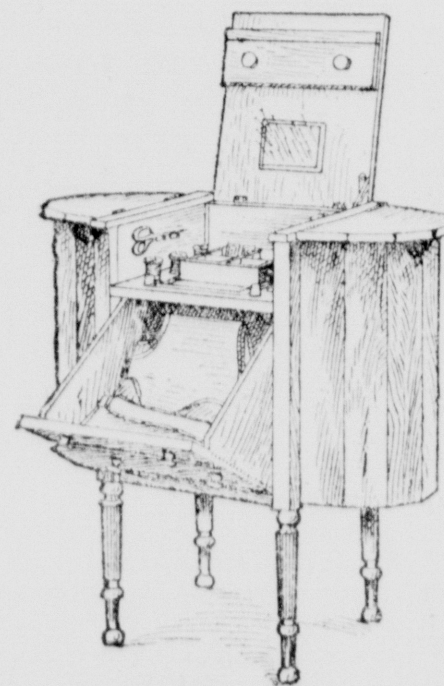

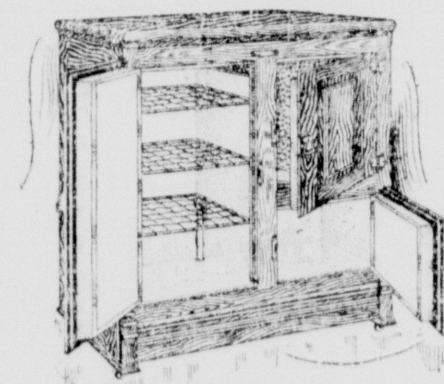

Two \$1 Union Suits \$1.50

## GRADUATES AT I. S. D. RECEIVE DIPLOMAS

Farwell Words Spoken by Supt. Gillett — "University of Common Sense" Theme of Address by Rev. M. L. Pontius.

An interested audience of good dimensions gathered at the state school for the deaf Tuesday morning to enjoy the graduating exercises when diplomas were awarded to Edward Carr Dolbrow of Alton, Minnie Maria Augusta Campe of Allamont, Ivy Gertrude Holmes of Mt. Pulaski, and John George Otto of Springfield. The stage in the auditorium was handsomely decorated and above it was the motto of the class, "Vision, Victory." The exercises throughout were of a high character and reflected great credit on the general management of the institution.

The program was opened with prayer by Rev. A. A. Todd, D. D., pastor of the First Baptist church and then came the salutatory by John George Otto who gave interesting reminiscences of the institution during the time the class has been there. The address of Rev. M. L. Pontius followed. Miss Amy DeMotte, a teacher and a fine vocalist, favored the audience with Star Spangled Banner, her sister, Mrs. T. P. Carter, accompanying on the piano and Miss Alice Sorrells on the violin. The valedictory by Miss Maria Augusta Campe had for its theme, "Illinois," dwelling on the history, grand resources and traditions of the great state, and closing with the well known song "Illinois".

The graduating class recited in the sign language a production by the class officer and on the theme of the motto of the class, "Vision, Victory".

The presentation of diplomas with good counsel and kind words by Superintendent Gillett followed.

The leading feature of the occasion was the address of Rev. M. L. Pontius on "The University of Common Sense." A few thoughts of the masterly effort are offered:

**Present Calls for Leaders**  
"In the great race of life if we would succeed common sense must have sway. The man with money may accomplish some things but without the possession of common sense he will be lacking. The present time teems with mighty enterprises and calls for mighty leaders and today the world has the greatest need ever of men liberally endowed with common sense; men who will know how to use their faculties to the best advantage."

"First we need in the battle of life Aspiration. The Greeks used to say that the man who would succeed must aspire even to be with the gods. An engine may be constructed according to the best principles with machinery built in the finest manner but without fire and water it is worthless. So is a man without noble aspirations. He may have the best of faculties but if he has no desire or ambition to use them he will amount to but little. Be especially careful to find the place for which nature created or fitted you and then try to fill it and no other. When a boy I heard a great violinist play on a fine instrument and forthwith I became possessed with a desire to make his calling mine. I bought an instrument and took some lessons but having no talent at all my teacher stopped my instructions. I bought a book and kept on and finally asked my brother to listen to a production and was horrified to learn he could not tell what I was trying to play and then I learned that music was not my forte. You will not succeed in life if you try to do the things for which nature did not fit you."

Genius Alone Not Sufficient.  
"Then you need determination."

Genius is a wonderful thing and we much desire it but genius alone never accomplished very much. The great things of the world have been brought about by men with a grim determination who set their hearts on accomplishing some one thing and bent their whole energies to it. The achievements which have most benefited the world have been the result of unceasing effort on the part of men who strove with the end and aim in view. Lord Byron was a man of genius but he left on record things which have wrought great evil. Robert Ingersoll was probably one of the brightest geniuses the state ever produced but he prostituted his talents to a base purpose.

Then you need application. Life is like an arrow which must be directed at a certain point. This is an age of application, concentration, specializing. The world condemns a failure. Whatever be the calling be determined to excel in that. The great men of the world have toiled to become masters of their undertakings. The young man to succeed must have aspiration, determination and application if he would succeed.

**Service is Keynote of Life.**  
"Young people of the graduating class; during your course in the school here your teachers have tried to teach you to use your hands and your heads. The great keynote to all living is service. If a man is not devoted to the service of his fellow men his life is a failure. This is a bright day for the graduating class for though clouds are overhead, you are well equipped for life and may attain to great things if only you will make the best use of what you have acquired here. We all anticipate brighter and better days. A poem tells of one who asked playful happy children if they were not contented but the little ones said they anticipated something more enjoyable later in life; the question was asked of youths and maidens and they said they hoped for improvement in middle life; persons in middle life with blooming children about them were inquired of and they said they expected an improvement in old age; and the ones with grey hair said they anticipated a better life beyond. Let your aspirations, determination and application lead you ever to that which is grand and noble and ever fraught with service to your fellow men."

Miss Frances Wood interpreted the address of Mr. Pontius and all the exercises were given both in the sign and spoken languages. At the close the benediction was pronounced by Dr. Todd and all adjourned to the library to enjoy a reception and tender good wishes to the graduates.

## EAST SIDE TUESDAY CLUB CLOSES YEAR

Interesting Program of Study Outlined in New Calendar—Members of the Club Unite with Red Cross.

A study program of more than usual interest has been arranged for the year by the East Side Tuesday club, according to the 1917-18 calendar, copies of which were distributed Tuesday afternoon at the last regular meeting held at the home of the president, Mrs. A. B. Williamson, 614 Jordan street. Altho the subjects have been chosen with regard to interest and variety, historical themes predominate and emphasis is laid also on subjects of timely import. At the meeting Tuesday reports from the Havana convention were made by the delegates, Mrs. Williamson and Mrs. W. D. Doying.

Red Cross work was discussed by Miss Louise Capps, who has just returned from a visit to the Chicago headquarters. At the close of this talk the question of active support was raised and all club members not yet enrolled joined the Jacksonville Red Cross Unit.

The following officers were elected:

**OFFICERS**  
President—Mrs. J. M. Miller.  
Vice president—Mrs. L. B. Turner.  
Secretary—Miss Elizabeth Laurie.  
Treasurer—Mrs. Belle Locking.  
Program committee—Mrs. G. R. Bradley, Mrs. Dennis Schram, Mrs. L. B. Turner.

The program for the year:  
September 25—Hostess, Mrs. Lorton. Greeting by President, Mrs. Williamson. Do You Know About a Cup of Tea? Mrs. Singley; Music, Miss Larimore.

October 9—Hostess, Miss Ranson; How the World is Fed, Mrs. Schram; Music Miss Whorton.

October 23—Hostess, Mrs. Glossop; Flag of Illinois; How to Cook; Italian Flag, Mrs. Ratachak; Indian Tribes of Illinois, Mrs. Kinney; Indian Songs, Miss Ranson.

November 6—Hostess, Miss Knollenberg; Alaskan Seals and Fisheries, Miss Laurie; Alaska's New Railroad, Mrs. Campbell.

November 20—Hostess, Mrs. VonHouten; Review of One of Shakespeare's Plays, Mrs. Williamson; Piano Solo, Grace Van Houten.

December 4—Hostess, Mrs. Doying; Present Day Needs, Visiting Nurse; Roll Call; Comforts for the Sick.

December 18—Hostess, Mrs. Baldwin; North America's Opportunities in South America, Religiously and Commercially, Mrs. Kennedy; Reading, Miss Maymie Kennedy.

January 8—Mid-Winter Picnic, Mrs. Kinney.

January 22—Mrs. Pierson; Birds of Illinois, Mrs. Williams; I. W. C. Flowers of Illinois, Mrs. Miller; Roll call, Favorite Flower.

February 5—Hostess, Mrs. Martin; Historic Points of Morgan County, Mrs. Coleman; Lincoln—Important Influences in His Life, Mrs. Lorton; Roll Call, Patriotic Quotation.

February 19—Hostess, Mrs. Williamson; Achievements of a Century, Mrs. Rhea; Music.

March 5—Hostess, Mrs. Rhea; The Development of the Educational System of the State, Mrs. Baldwin; Music, Victrola.

March 19—Guest Day at College, Mrs. Singley; Music, Mrs. Wackerle.

April 2—Hostess, Mrs. Singley; Centennial Pageant, How carried out, Mrs. Pierson; Reading, Mrs. Brockman.

April 16—Hostess, Mrs. Ratachak; Natural History of Illinois, Mrs. Doying; Illinois Legends, Miss Holgrave; Libraries of Illinois, Mrs. Glossop; Prominent Women of Illinois, Mrs. Schram.

May—After District Federation; Hostess, Mrs. Miller; Business Meeting; THE MEMORIAL.

Active members of the club are:—Mrs. A. C. Baldwin, Mrs. George Bradley, Mrs. Wallace Brockman, Mrs. J. W. Brown, Mrs. Ann Campbell, Mrs. L. C. Coleman, Mrs. W. D. Doying, Mrs. C. P. Glossop, Miss Josephine Holgrave, Mrs. George Hollocking, Mrs. D. E. Kennedy, Miss Mary Knollenberg, Mrs. E. L. Kinney, Miss Myrtle Larimore, Mrs. Ben Lorton, Miss Elizabeth Laurie, Mrs. Albert Metcalf, Mrs. J. Edgar Martin, Mrs. J. Marshall Miller, Mrs. J. K. C. Pierson, Mrs. Charles Ratachak, Miss Clara Ranson, Mrs. Geo. Rhea, Mrs. Dennis Schram, Mrs. E. C. Singley, Mrs. L. B. Turner, Mrs. M. Van Houten, Miss Jessie Whorton.

PHILLIES MAKE CLEAN  
SWEEP OF CUB SERIES

DEFEAT CHICAGO BY SCORE OF  
8 TO 6

Cubs Hit Lavender Hard But Oesch-  
ger Holds Them in Check After  
Fifth Inning—Cutshaw's Homer  
Wins for Brooklyn

Philadelphia, May 22.—Philadelphia defeated Chicago today 8 to 6, thereby making a clean sweep of the series of four games and taking first place from New York. The visitors hit Lavender's delivery hard, but Oeschger held them in check after the fifth inning.

Pittsburgh at Brooklyn.  
Cincinnati at Philadelphia.  
Philadelphia at New York.  
St. Louis at Boston.

American League.  
Washington at Chicago.  
Philadelphia at Detroit.  
New York at Cleveland.  
Boston at St. Louis.

AMERICAN ASSOCIATION OWNERS WILL MEET.  
Chicago, May 23.—Club owners of the American Association will meet here in a special meeting next Saturday to approve or reject President Hickey's action in calling off the inter-sectional series with the International League.

The meeting was called by President Hickey tonight after he had apparently failed to adjust the situation in informal conferences with several of the club owners.

BROOKLYN TO PLAY CLEVELAND  
Cleveland, O., May 22.—The Brooklyn Nationals will play an exhibition game with the Cleveland Indians here Monday, June 18, officials of the local team announced today. Cleveland has been scheduled to play that day in Philadelphia but this game will be moved up and played as half of a double header, June 16, the Philadelphia and Cleveland teams then coming to Cleveland to play on Sunday the 17th, the game originally scheduled for July 18.

## WITH THE MINOR LEAGUERS.

The new Central Michigan league, comprising Flint, Saginaw, Bay City and Port Huron, is scheduled to start pastime May 26. This is the first All-Wolverine circuit organized since the passing of the old southern Michigan league.

A new rule in the Western league requires each team to carry six youngsters on its roster. The rule was adopted with a view to gradually weeding out the veterans and rebuilding the teams with new timber.

Art Bues, formerly with the New York Giants, has been shifted from the Columbus American association team to the Baltimore team of the International league.

Looks as if Beals Becker, the Kansas City slugger, is all set to repeat his heavy swatting of last season in his first dozen games this spring the former Giant hit for .450.

Pitcher Marty O'Toole is again with the Omaha team of the Western league. The former Pittsburgh twirler did brilliant work for Omaha last season.

Ray Richmond, a pitcher with the Bloomington Three-Eye league team has quit baseball and enlisted in the army aviation service.

The Little Rock team of the southern league looks to be the same heavy hitting outfit it was last year. In a recent game against Chattanooga the Travelers gathered 16 hits.

Hi Jasper, one-time White Sox twirler, quit the Los Angeles team cold recently. This is the second time Hi has deserted the Angels since he joined last season.

## SILVER JUBILEE

Greenboro, N. C., May 22.—The silver jubilee commencement of the North Carolina State Normal and Industrial College was celebrated today with an interesting program of exercises. The commencement oration was delivered by Dr. Nicholas Murray Butler, president of Columbia University.

University of Pennsylvania undergraduates and alumni were extremely pleased with the showing made by the Red and Blue athletes under the leadership of Lawson Robertson at the Pennsylvania Relay Carnival. The Pennsylvania track team is expected to be a decided factor in intercollegiate games under Robertson's training when college athletics are renewed after the war.

ATHLETICS EVEN UP  
SERIES WITH NAPS

CAPTURE FINAL GAME BY 3 TO 1 SCORE.

Reckless Base Running Hurts Cleveland's Chances Early in the Contest—Guisto Makes a Double Play Unassisted.

Cleveland, May 22.—Philadelphia evened up on the series with Cleveland, winning 3 to 1. Reckless base running hurt Cleveland's chances early in the contest.

Wild pitch—Morton 1; Falkenburg 1. Passed ball—Schang. Umpires—Morality and Evans. Time—1:40.

WOMEN IN THE NEWS  
The Krupp Works at Essen are not only the property of a woman, Baroness Bertha Krupp von Bohlen, but employ 2000 women a fourth of the 8000 employees who constitute what a recent issue of the Frankfurter Zeitung calls a "kingdom of work." Before the war there were only 1214 women employed at the Krupp Works, to 2588 now.

Miss Henrietta Patterson of New York, who celebrated her 100th birthday recently, entertained her guests by reciting an "Ode to Lincoln," which she committed to memory after she was 90 years old. She still has a lively interest in affairs of the world and recited the ode to show her patriotic approval of President Wilson in the present war. She was born in New York May 12, 1817, and as a little girl was one of the first customers who patronized Alexander Stewart's little thread and needle shop, grown since to the formidable Wanamaker's of the present day.

Madame Johanna Gadski, Wagnerian prima donna, who recently retired from the Metropolitan Opera company of New York, did so, according to her own official statement, because of "unjust attacks" against her because of her supposed anti-Americanism. Mme. Gadski's husband, Capt. Hans Tauscher, was the agent of the Krupp in the United States and was arrested last year for alleged pro-German plotting. However, Mme. Gadski will be 45 years old next month, and unkind critics have been hinting that imperial state reasons had nothing to do with a retirement dictated by a diminution of voice and powers.

The "spirit of '76" still lives at old Lexington, and the famous cradle of the Revolution not only boasts of "war patriots" who encourage working during the war, but of women by the score who are glad to follow their suggestions, old and young, they plaidly knit and sew, fashioning socks, sweaters, and garments of all kinds for the soldiers during the service. Among them are elderly women to whom this is no new experience, for years ago they did the same thing in the civil war. Besides, the men in old Lexington have advised to stay away from church to work in their gardens and "diggy" that way.

When Miss Maria Anghito Peary, the Snow Baby, is married to Edward Stafford next autumn, she will have a marriage license which has never been duplicated and probably never will be, as to strangeness of birthplace given for the young lady. "Native of 77 degrees 44 minutes" will appear on Miss Peary's permit to marry. Born in the Arctic on one of her father's exploration trips, she was the only white child the Eskimos had ever seen, and the famous explorer was glad to let them name her Anghito, not as most people believe, because she was born among the snows, but because she was a little white snowball among the other little ones. Miss Peary is a Republican to a degree, for, besides being born at 77 degrees, 44 minutes, he has studied in Switzerland and France and speaks French and German well. She has also been deeply interested in aviation.

Miss Mabel Hyde Kittredge of New York, an expert on the problems of food conservation and one of the few women allowed to enter Belgium with Herbert C. Hoover to work with the relief commission, has been appointed by Mayor Mitchell of New York on the co-operating committee for defense as an expert on the food problem. Even before her work in Belgium, Miss Kittredge was well known as chairman of the New York school lunch committee. A dozen years ago she made a model house out of four cement rooms. The girls were taught to do all the work, not only the cooking and decorating, but the cooking as well. The experiment attracted much attention and had many imitators in and out of the metropolis.

The Dowager Marchioness of Dufferin and Ave, widow of the famous statesman to whom she was married 55 years ago, and who died in 1902, has written remarkable reminiscences of her life in Russia and Turkey under her husband and was Ambassador there. "The book 'My Russian and Turkish Journals' was recently published. Lady Dufferin accompanied her husband to Canada when he was the most popular Governor-General the Dominion ever had, later to India when he became Viceroy, and was in turn Ambassador to Russia, Turkey, Italy, and France, and has written other volumes describing her share in Lord Dufferin's brilliant career as a British statesman.

College managers report that the idea of intercollegiate sports has failed to take the place of intercollegiate contests and there are few students reporting for such games or training.

JUST WHAT OUR NAME IMPLIES  
WHOLESALE-RETAIL

SERVICE  
SATISFACTION  
SUCCESS

Jacksonville, Ill., May 19, 1917.

Mr. U. R. A. Friend,

Anywhere, Ill.

Dear Sir:

This is a personal letter to all live, up-to-date, prospective automobile purchasers, and we know they will read every line of it as it is interesting.

The time is now here when you can obtain greater pleasure out of touring the country than at any other period. You owe it to your self and family to get some recreation and pleasure.

You can afford to own a real car when you can buy a "CHEVROLET" at the present price, and for a pleasure as well as a business investment you can never equal it anywhere.

Take it from us as a friendly tip and investigate at once the merits of this "WORLD-WONDER" in the auto field. We cannot commence to tell here in our limited space all the wonderful accomplishments of this "CHEVROLET."

Ask any user of the "CHEVROLET" what he has found to be true as to the merits of this car.

Why, everybody that knows car value always says, "It is the best value in the world," and ends up by stating, "BE SURE AND BUY A CHEVROLET" and you will be more than pleased."

Take time by the forelock and call and see our Mr. Wm. Newman Jr., allowing him the pleasure of demonstrating to you just what can be done and how well you will be pleased.

Yours very truly,

JACKSONVILLE FARM SUPPLY CO.

M. R. Range.

## Liquid Lightning

Let Little Ampere take care of your battery, and you'll always be able to get out of it the liquid lightning that gives bright lights, snappy starting, and perfect ignition.

You can't take it out if you don't put something back. You must keep it filled with water and in a fully charged condition. And if you let us test it regularly, you will be sure that it's always full of liquid lightning that has put the crank out of commission.

Come in for your Willard Service Card. We have a rental battery for your use when yours needs repairs.

### ASK YOUR NEIGHBOR.

#### THOUSANDS IN ILLINOIS.

Joliet, Ill.—"When I was in need of a  
woman's tonic, the druggist recom-  
mended Dr. Pierce's Favorite Prescrip-  
tion. I took it steadily. I gained in  
weight and strength and my health was  
so much improved that I have not needed  
any medicine of the kind since. I am  
glad to speak words of praise for 'Fav-  
orite Prescription.'"—Mrs. Wm. Strick-  
land, 110 South Centre St., Joliet, Ill.

#### OUR FAMILY DOCTOR.

Lockport, Ill.—"Some ten years ago I  
sent for a copy of the 'Common Sense  
Medical Adviser.' It taught me about  
'Favorite Prescription' and 'Pleasant  
Pellets.' Since that time I have kept  
both in the home and used them off and  
on. They are a part of our 'family doc-  
tor.' Both of these remedies have proved  
first class. We always speak well of  
them."—Miss EVANGELINE ARENT, 1425  
State St., Lockport, Ill.

For all diseases peculiar to woman,  
Dr. Pierce's Favorite Prescription is a  
powerful restorative. During nearly 50  
years it has banished from the lives of  
tens of thousands of women the pain,  
worry, misery and distress caused by  
irregularities and diseases of a feminine  
character.

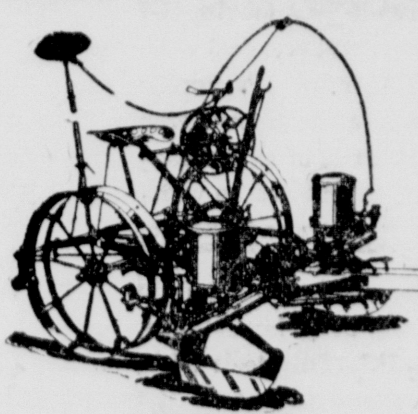

If you are a sufferer, if your daughter,  
mother, sister need help, get Dr. Pierce's  
Favorite Prescription in liquid or tablet  
form at any medicine dealer's today. Book  
on woman's diseases sent free.

#### EVERY MARRIED COUPLE

and all who contemplate marriage should own  
this complete book of Life—The 'Common Sense  
Medical Adviser.' by R. V. Pierce, M. D. It  
unfolds the secrets of married happiness, so often  
revealed too late. No book like it to be had at  
any price. 1008 pages—bound in cloth. Sold  
formerly for \$1.50. We can only mention a few  
of the chapters here: The Mechanism of Life,  
History of Marriage, Advice for Mother and Baby,  
Nervous Troubles, Sex, Hygiene, Anatomy, Physi-  
ology, Medicine, etc.

Special Offer.—For a limited time we will send  
one copy for three times the post cost of wrapping  
and mailing, to any reader of this paper. Address  
605 Main Street, Buffalo, N. Y.

## International Corn Planters Have a Habit of Pleasing

If your neighbor owns  
an International corn  
planter, you don't have  
to be told that he is  
satisfied. You know it,  
and we know it. The  
International corn  
planter satisfies because  
it is simple and because  
it plants corn the way  
you want it planted. A  
strong feature is the ad-

justable runner frame, keeping the runners even and  
the hoppers level, no matter what the height or speed  
of your team. This mean accurate dropping and even  
checking instead of zig zag. It is a very convenient  
planter under all conditions.

The International is the corn planter that deserves  
to be looked over by every farmer who wants to get  
the most out of his cornfields. It wastes neither seed  
nor ground, it handles easily, and it lasts as long as any  
farmer could ask.

Come in the first time it is convenient and study an  
International planter. Made in five styles—own the  
style that suits you.

# MARTIN BROS.

## GERMAN PAPER TELLS OF FEELING ON PEACE MOVE

Attitude of Influential Interests in  
Germany Described in Article  
Published Recently—Quotes Con-  
ditions Which Appeared in Moscow  
Paper.

Amsterdam, Netherlands, May.—  
(Correspondence of The Associated  
Press).—How some influential inter-  
ests in Germany, which are repre-  
sented by the Rheinisch Westfälische  
Zeitung, look upon future peace is  
illustrated by a leading article in  
that paper on a reported Austro-Ger-  
man peace move. It quotes the fol-  
lowing conditions, which it says ap-  
peared in a Moscow paper:

Alsace-Lorraine to remain Ger-  
man.  
Belgium to become independent,  
but without an army of her own.  
The southern Slav states to be-  
come independent.  
Croatland to remain German.  
Armenia to come under Turkish  
administration.  
The Dardanelles to remain Turk-  
ish.

The Zeitung then says:  
"Belgium and Alsace-Lorraine  
can hardly interest Russia, just as  
any frontier modification on the  
Russo-Persian or Russo-Chinese  
frontier would not interest us, but  
the other points are capable of dis-  
cussion. For example, if we were to  
take our present territorial position  
in Galicia and the Balkans as a basis  
for a Russo-Austro-Hungarian agree-  
ment, neither empire would be  
badly off. Russia would then rule almost  
entirely over Ukraine population,  
while Austria-Hungary would have  
the entire Serb race in her hands. If,  
by independence, is understood self-  
administration on the Galician model  
the independence of the southern  
Slavs, which is demanded by Rus-  
sia, could also be realized by this  
solution. The Polish question is dif-  
ficult, but as the Russian govern-  
ment repudiates the idea of ruling  
foreign peoples an agreement can  
certainly be found."

#### To Save Fruit Trees By Grafting.

Paris, May.—France is not unduly  
depressed by the destruction of the  
orchards in the evacuated areas of  
her territory, because a remedy is  
said to have been found for the evil  
inflicted on these agricultural dis-  
tricts by the Germans.

As soon as the wholesale felling  
of the fruit trees was announced by  
the French press an astute Norman  
peasant wrote to his paper pointing  
out that nothing was easier than to  
save a broken or hacked fruit tree  
at this time of the year by careful  
grafting. The Horticultural Society  
of France took up the idea at once,  
and issued detailed instructions for  
the grafting of every kind and var-  
iety of fruit trees. This work must  
be completed by May 15. Thus  
French ingenuity bids fair to over-  
come the problem raised by the de-  
struction done to the fruit trees.

#### Vast Destruction By Rats and Birds.

London, May.—Rats and sparrows  
destroy more food in England than  
German submarines destroy on the  
sea, in the opinion of the food pro-  
duction department of the Board of  
Agriculture, which has issued an  
order for their destruction thruout  
the country. A bounty has been placed  
on rats. Practical hints on how to  
kill not only sparrows but crows and  
rats have also been given.

#### New Loan Foreshadowed.

The Hague, Netherlands, May.—  
A new loan of \$200,000,000 is fore-  
shadowed by the Minister of Finance  
Marie Willem Frederik Treub, half  
of which is to be used for the con-  
version of the first war loan of 1914  
which amounted to \$110,000,000.

Bondholders of the latter issue par-  
ticipating in the new loan will re-  
ceive a bonus. Such a concession  
operation, which cannot actually  
take place before January 1 next,  
will mean a substantial economy in  
interest in consequence of the easer  
money market now obtaining.  
The first war loan bore 5 per cent  
interest, and the last 4 per cent.

The Minister proposes to reserve  
the revenue of new taxes for pros-  
pective social legislation, and to find  
the means for loan redemption by  
making life and fire insurance a  
State monopoly. He is opposed to a  
tobacco or alcohol monopoly.

## WOUNDED SOLDIERS TELL THRILLING STORIES

Officers and Men Returned from  
British Front in France Recount  
Incidents of Fighting on Arras  
Battlefield—Visited "Cave of the  
Dead"

London, May.—(Correspondence of The  
Associated Press).—Striking incidents of  
the tremendous fighting in the Arras  
battlefield are related by wounded of-  
ficers and men who have returned from  
the British front in France. That these  
men are absolutely satisfied with the  
progress the British troops are making  
is quickly evident. They are pleased with  
every aspect of the fighting. It is dif-  
ficult to extract a grumble even from  
that most exacting critic the "old sol-  
dier."

It is pointed out here that this situa-  
tion gives the soldiers confidence, the  
surest foundation of perfect morale and  
that this, backed by abundant material,  
leads to victory.  
Asked if there were no mistakes, over-  
sights, checks or blunders, one young  
officer who had been wounded in the  
head and who shrank and whose life  
had been saved by one of the  
British army's so-called "tin hats," re-  
plied:

"Oh, yes, there are checks and blunders  
all right, only they weren't on our side of  
the fence. They were all on the other  
side of the 'granite wall.' Master Hun-  
dred's side, you know. I guess he will  
be issuing another order to his armies, as  
he did after the December show at Ver-  
dun, demanding stricter training, and  
regretting faulty morale. All those  
guys, you know, and the thousands of  
wounded prisoners, and the German  
barrage that didn't get going until our  
fourth wave swept over the parapet.  
They'll have to vamp up something a  
bit more convincing to soothe the Faith-  
ful and over this show, won't they?"

One little man, who had tried conclu-  
sions with a German grenade and had  
lost the ground with fourteen wounds  
but in remarkably high spirits, expressed  
the conviction that the German grenade  
was "not a bloomin' patch on ours." He  
and a comrade told a story of visiting a  
"Cave of the Dead."  
In its details as to leave no doubt of its  
truth. While exploring a huge shell  
exploded, the light of the searchlight  
of one side of it and entering the  
hole found it led to what once had been  
a German position, a camp, dugout,  
probably a battalion headquarters.

By the light of their electric torches  
they explored the dugout and became  
convinced that one of the British heavy  
shells must have penetrated it and ex-  
ploded therein. The floor of the dugout,  
they asserted, was a mere layer of earth  
and the German soldiers, who were  
with dead Germans of whom a large  
number were officers. None of the dead  
bodies showed any signs of a wound.  
The terrible conclusion of the great  
shell exploding in that confined space ap-  
parently had killed all of them. One  
German had a telephone receiver in his  
hand.

A Canadian corporal, whose story was  
confirmed by an English sergeant, de-  
scribed prominently in the incident, de-  
scribed how four men captured 100 Germans on  
a dugout near the British advance line  
passed beyond them. The corporal was  
wounded, first dropped a bomb into  
the dugout and then, hearing no re-  
sponse, led the way down a long flight  
of steps leading down a considerable  
cave. Hearing voices in the darkness  
they dropped a couple more bombs on  
the way down, and on entering the  
cave, lighted candles.

At this a murmur arose from a group  
of Germans huddled at the far end of  
the dugout, standing with their hands  
above their heads. The corporal and  
the British officer shouted that if any  
one moved he would "bomb them all  
to glory." The British officer, who  
one man of the four Britishers was sent  
to the entrance of the dugout while he  
ordered the Germans to advance in groups  
of three and pick up their arms, warning  
them that he would "bomb them all  
to glory" if any made a hostile move.  
By three men they were all marched up  
to daylight and dispatched to the rear,  
the orderly at the entrance keeping watch  
of them to see that they went in the  
right direction and warning them that  
he would shoot if they undertook to es-  
cape. In the end the whole lot of pris-  
oners was safely dispatched on the road  
to more certain captivity.

## CHARGED WITH PLOTTING AGAINST JAPAN.

Seoul, Korea, May.—Charged  
with plotting to destroy the Japan-  
ese administration and restore the  
Korean Empire, An Chung-chih, a  
Korean, 45 years old, has been ar-  
rested and held for trial.

It is alleged that he has been  
plotting ever since the annexation of  
Korea and that, with accomplices,  
he carried on the conspiracy at Vla-  
divostok and other places in the  
Russian coast provinces. The intri-  
gues were discovered and the men  
banished by the Russian authorities.  
They number about eighty. In  
November 1915 they armed them-  
selves, coming from their base in  
Kirin as far as the river Tuman,  
which runs between Korea and the  
Russian territory, where they met  
with a force of Russian cavalrymen  
and were defeated.

The plot was discovered acciden-  
tally as a result of a disagreement  
among the men involved.

#### U. S. AND CANADA TO

CO-OPERATE  
arFgo, N. D., May 22.—The first  
definite steps looking to a close co-  
operation of the United States and  
Canada in preparing measures to  
insure the success of the War are  
expected to be taken here tomorrow  
when representative farmers from  
both sides of the border will meet  
for a general conference. Crop mar-  
keting problems, the regulation of  
prices, and the prohibition of specu-  
lation in food products during the  
period of the war are among the  
matters scheduled to receive atten-  
tion.

#### MEMPHIS CELEBRATION

Memphis, Tenn., May 22.—The  
mammoth historical pageant which  
was planned to open in Memphis to-  
day has been indefinitely postponed  
on account of the war. The festivi-  
ties were intended to celebrate the  
completion and opening of the Har-  
ahan Bridge the southernmost struc-  
ture across the Mississippi, joining  
Tennessee and Arkansas. The pro-  
moters hope that the conditions may  
permit the holding of the celebration  
next fall.

G. L. Hills of Franklin was among  
the arrivals in the city yesterday.

## GERMAN DECREE IS MOVE TOWARD CONFISCATION

Order for Liquidation of Property  
of French Subjects in Germany  
Is So Regarded By French—War  
Is Economic as Well as Military.

Paris, May.—(Correspondence  
of The Associated Press).—The de-  
cree that recently appeared in the  
German official imperial journal  
ordering the liquidation of the prop-  
erty and investments of French  
subjects in Germany, including Al-  
sace-Lorraine, is regarded here as a  
step toward confiscation. Such is the  
view of one of the best informed  
French statesmen, Louis Puech,  
deputy from Paris, former Minister  
of Commerce and now chairman of  
the commerce committee of the  
Chamber of Deputies.

"The official decree presents this  
liquidation as a measure of 'reprisals'  
said Monsieur Puech to the  
Associated Press today. 'Reprisals  
for what? No property of German  
subjects in France has been liqui-  
dated, no provision has been made  
for such action. We have sequestered  
the property owned by our ene-  
mies in France pending the settle-  
ment of our accounts after the war,  
but it has been done in conformity  
to all individual rights.'

"The Germans," M. Puech con-  
tinued, "have the advantage of us in  
the matter of foreign investments.  
French subjects owned at least  
1,500,000,000 francs worth of real  
estate in Alsace and Lorraine, to say  
nothing of heavy investments in Ger-  
man securities and commercial pa-  
per. We have no detailed figure but  
it is probable that French interests  
in Germany are double the total of  
German holdings in France.

"Germany's war upon us," M.  
Puech declared, "was economic as  
well as military from the outset. As  
soon as they began to install in our  
territory they began a methodical  
impoverishment of the regions they  
didn't hope to hold permanently.

"They took tools and engines from  
the factories, raw materials from  
storehouses, agricultural products  
and implements from the farms and  
furniture from the houses; they  
cracked safes everywhere to lay  
hands on bonds and money. In cer-  
tain regions of the north of France  
they even despoiled the population  
of their savings banks, driving them  
from their homes. Consequently it  
is not surprising that they confis-  
cate the property of French citizens  
in Germany."

"The intentions of the Germans  
was to make sure that whether they  
vanquished on the field of battle or  
not, they would put France into  
such a state of dilapidation that she  
would be eliminated for years from  
competition with German industries."

Asked as to what action France  
and her allies contemplated in reply  
to the confiscation of property in  
Germany, M. Puech said that the  
commerce committee of the chamber  
was in favor of concerted action of  
all the Entente allies. He says Ger-  
many will force all her enemies to  
combine all the pledges they hold in  
the form of German investments in  
their territory and expressed the  
belief that, if the United States  
should join in such a movement, Ger-  
many would be readily brought to  
reason.

"As far as France is con-  
cerned," he said, "the Germans have  
the advantage in this respect."  
Speaking of French treatment of  
German owners of property in  
France M. Puech said the authori-  
ties had acted fairly. The functionar-  
ies put in charge of sequestered  
property have no authority to either  
liquidate or administer it. It is in  
every case a trust. There have been  
cases in which stocks of perishable  
goods were sold for the account of  
German owners, others in which  
stocks needed for the national de-  
fense have been requisitioned but  
with full accounting for the benefit  
of the interested parties. In one case  
by reason of the great rise in the  
price of goods a German's stock that  
inventoried about 1,000,000 francs  
was sold for more than 5,000,000.

"Of course," concluded M. Puech,  
"if the Germans continue to treat  
the property of our subjects as at  
present, we would be silly to give  
her subjects the full benefit of the  
benevolence we have shown them  
thus far."

**Murder of Missionaries Hanged.**  
Tokio, May.—Hitomi Kawaka-  
mi, the murderer of Rev. and Mrs.  
W. A. F. Campbell, the Canadian  
missionaries, at Karuzawa last  
summer, has just been hanged at  
the Tokio central prison.

chester.

Harold Marsh and family spent Sunday  
with relatives in this vicinity.

#### OLDEST WEST POINT GRADUATE

Washington, D. C., May 22.—A  
keen observer of the present mili-  
tary activity in the United States is  
Brig. Gen. Horatio Gates Gibson, U.  
S. A., retired, who today celebrates  
his ninetieth birthday anniversary at  
his home in this city. Gen. Gibson  
is known to every officer of the ser-  
vice as the oldest graduate of the  
United States Military Academy. It  
is just seventy years since he re-  
ceived his diploma. West Point  
also started south to engage in the  
war with Mexico.

with their son, Eddie Bacon and family  
west of Woodson.  
Mrs. Lillian Dobson, son Wayne and  
daughter Eva traded in Jacksonville Fri-  
day.

## HOSPITAL ATTACHE TELLS EXPERIENCE

Carrie Marks Describes  
Remarkable Benefits  
Tanlac Gave Her

Miss Carrie Marks, 1201 South  
Main street, this city, is among the  
latest to offer praise for Tanlac, the  
celebrated new medicine. Miss Marks  
has been employed at the Jack-  
sonville State Hospital for insane for the  
past eleven years and she is well  
known here.

"For years I've suffered from  
stomach trouble and nervousness,"  
Miss Marks said on May 18. "My  
work necessitates me being on my  
feet practically all the time and I'll  
tell you, it was a job for me to get  
ground at times. My meals never  
agreed with me and I couldn't sleep  
at night."

"When I learned of the good Tan-  
lac was doing for others I decided to  
try the new medicine. I certainly  
have improved greatly. I sleep much  
better at night now and I thoroughly  
enjoy my meals. I'm not nearly so  
nervous and find my work much eas-  
ier than before. I intend to continue  
using Tanlac for I'm convinced it is  
a fine medicine."

Tanlac is especially beneficial for  
stomach, liver and kidney trouble,  
catarrhal complaints, nervousness,  
sleeplessness, loss of appetite and the  
like.

Tanlac is now being introduced in  
Jacksonville at the Coover-Shreve  
Drug Co., East Side store, where a  
special Tanlac representative is ex-  
plaining the new medicine to the  
public daily. Tanlac also may be ob-  
tained at the West Side store of the  
Coover-Shreve Drug Co. It is sold in  
Waverly at the Wyle Drug Co.; in  
New Berlin at the New Berlin Drug  
Co.; in Ashland at H. O. Brown-  
back's; in Versailles at A. G. Bates';  
and in Chapin at F. P. McKinney's.

Helen Dobson spent Saturday night and  
Sunday at home.  
Grandma Newman is in poor health,  
having the doctor called, suffering with  
her head.

Wm. Wiswell spent Monday at his  
farm.  
Born, Thursday, May 17th, to Mr. and  
Mrs. D. J. Cruise, a daughter, Grace  
Patterson.

day night and Saturday with the for-  
mer's parents, Mr. and Mrs. S. S. Shep-  
pard.

Walter, Wayne and Edna Dobson have  
been sick the past week with tonsillitis.  
Leta Clayton traded at Midway Fri-  
day.

S. S. Sheppard and family motored to  
Jacksonville Saturday in their new Over-  
land.

Thelma Bacon is visiting her grand-  
parents, Mr. and Mrs. E. Bacon and  
wife.

Mr. and Mrs. J. K. Cunningham, Mr.  
and Mrs. J. L. Wyatt, Mr. Sib. Hadden,  
Wm. Dwyer, Mr. C. W. Kerner and  
daughter Kaye, Mrs. Orville Match, Jane  
Wright, Miss Bess Hart, Jay Millard  
and Rev. McHugh were visitors at  
Pleasant Grove Sunday afternoon.

Everybody came to Sunday  
school next Sunday afternoon at 3  
o'clock.

dicted called on city people yester-  
day.

### —WHITE HALL—

White Hall, May 22.—The remains of  
Mrs. Emily Taylor, who died Saturday  
in the State Hospital at Jacksonville,  
were brought to White Hall Sunday  
morning. The body was 74 years old and  
had resided in Greene county all her  
life with the exception of the five years  
of confinement in the state hospital.  
Funeral services were held at the home  
of Charles Hutcheson at 3 o'clock Sun-  
day and the interment was in the White  
Hall cemetery.

Dim Beasley, an old resident of White  
Hall, dropped dead at noon Monday  
while at home dining. He was a man  
of large build, and had been in  
good health apparently up to the time  
of his death. His age was about 80 years  
and he was a veteran of the Civil War.  
A widow survives.

R. W. Pearce, circulation manager of  
the Times-News at Hammond, In-  
diana, arrived Sunday morning to spend  
a couple of days with his mother, Mrs.  
Minnie Pearce, who arrived last week  
from her winter sojourn at Shreveport,  
La., in company with her son Frank and  
family.

Frank started on his return to  
Shreveport Tuesday, leaving his family  
here for an extended stay.

This community received 1.52 inches of  
rain during the 24 hours ending Wednes-  
day morning, according to the report of R.  
B. Pearce, local cooperative observer of  
the weather bureau.

### ARENZVILLE

Mrs. Frank Polsgroff who has been ill  
for six weeks is improving. Her son,  
John Irving and family departed for  
near Concord to spend the summer.

T. T. Tins of Concord was listed among  
the callers Wednesday.

Mrs. Frank Craven of Chanderville has  
been the guest of her parents Mr. and  
Mrs. Elie Wood.

Fred Palmer returned to his home at  
Cuba, Ill. recently.

Albert Weeks and John Berger return-  
ed from Michigan where they secured  
autos.

Henry Meyer and Ed Long have re-  
turned from Rushnell, having driven thru  
in Mr. Meyer's new Oldsmobile car.

Simon Sixer and family have been en-  
tertained by Springfield relatives.

The oil committee of the board of  
trustees has been commissioned to pur-  
chase 15,000 gallons of oil for the town  
to be applied to the thoroughfares leading  
out of the village.

Mrs. S. Caldwell of Concord spent a  
few hours in town Tuesday.

Frank Polsgroff and son Arthur trans-  
acted business at Jacksonville Wednes-  
day.

John Schaefer visited at Wagner's  
Bridge at the home of Arthur Schmitt.

John Nickel of north of town was a  
business caller since our last.

John Lane motored to Meredosia a few  
days ago.

Charles Laughly of Grace Chapel was  
among the out side business callers this  
week.

Mrs. Ed Hierman made a brief visit at  
Beardstown.

Muriel Polsgroff and John Zulauf view-  
ed the play at Chapin Tuesday night.

Elvin Long spent over week end at  
Markham.

### MURRAYVILLE

Mrs. E. R. Irwin spent from Saturday  
until Tuesday with relatives at Spring-  
field.

Miss Laura Hanback of Pearl visited  
several days last week with her brother  
Walter Hanback and family.

Mr. and Mrs. Clarence Phillips spent  
Sunday with relatives at Jacksonville.

Mrs. Noah Ornduff and family called on  
her sister of Jacksonville, Saturday  
and Sunday.

E. B. Cade and sister, Mrs. Elvina  
Edley visited their sister Mrs. Charles  
West and family near Jacksonville Sat-  
urday night and Sunday.

W. A. Walker and family of Jackson-  
ville were guests Sunday of Mr. Walker's  
brother W. A. Walker and wife.

P. G. Bendies and family of Jackson-  
ville visited the former's father T. J.  
Bendies and family Sunday.

Mrs. Vyle Maffett of Springfield spent  
from Friday until Sunday with home  
folks here.

Mr. and Mrs. Basil Ketter and child-  
ren of Jacksonville were guests of re-  
latives here Sunday.

Mr. and Mrs. C. T. Daniel spent Sun-  
day with friends at Joliet and visited  
the prison house farm near Lockport.

Mr. and Mrs. Chester Blakeman and  
C. E. Blakeman and family were en-  
tertained at dinner Sunday at the home  
of their parents Mr. and Mrs. C. S.  
Blakeman.

Mr. and Mrs. Donald Strang of White  
Hall spent Sunday with the former's  
grandparents Mr. and Mrs. C. P. Strang.  
Layton McGhee of Jacksonville spent  
Sunday with his parents here.

C. E. Strang, Mrs. W. B. Wright, Mrs.  
J. H. Spencer and Mr. and Mrs. H. G.  
Strang attended the funeral of Fred  
Strang at Roodhouse Monday.

C. J. Craighead and family expect to  
move to Pleasant Hill this week where  
they will reside in the future.

### YOUNGBLOOD

David Wilson, Jonas Wilson and family  
attended the commencement exercises  
of the Franklin school Friday evening.

J. S. Miller and Hedland Wilcox re-  
ceived their new farms Wednesday and  
are both farming now.

Walter Jones and family of Modesto,  
visited here with his father, B. F. Jones,  
Sunday.

The farmers have been pretty busy the  
past week getting their corn planted and  
most of it looks as if it was put in fine  
shape. Most all will finish this week.  
Some fields that were plowed a little late  
are badly in need of rain.

J. J. Smith had the misfortune to fall  
out of his barn loft Tuesday afternoon,  
injuring both ankles considerably. It  
will be some time before he can use  
them again.

E. Rawlings and family, William  
Hettick and wife of Jacksonville and  
Dr. Wm. Bryman and wife of Scottsville  
were Sunday visitors at J. J. Smith's.

## TESTIMONIALS FOR MEDICINES

Lydia E. Pinkham Medicine Company Publishes Only Genuine Ones.

The testimonials published by the Lydia E. Pinkham Medicine Company come unsolicited. Before they are used the Company takes great care to inform itself about the writer. Never knowingly, has it published an untrue letter, never is a letter published without written consent signed by the writer. The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness.

It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health, and their desire to help other women who are suffering as they did.

### HELP HIM TO SAVE

Every woman realizes the necessity, just at this time, of doing everything in her power to reduce the heavy drain upon her husband's income. Even with the most economical management of your household affairs it is pretty hard to lay aside a few dollars for the proverbial "rainy day." Let us help you by renewing some of your dresses, and thus eliminate or lessen your dressmakers bills. Dry cleaning by our up-to-date method makes the old garments look new.

## FUNERAL SERVICES HELD FOR J. F. JORDAN

Many Gathered to Pay Respect to Memory of County Pioneer.

Funeral services for John F. Jordan were held Tuesday morning in charge of the Rev. J. O. Kirkpatrick. Brief services were held at the residence at 9:30 o'clock and services at Ebenezer church at 10:30 o'clock. Music was furnished by Charles A. Rowe, Edward Williamson, Gus Wainman and W. W. Gilham. The flowers were cared for by Orris Jordan, Mabel Jordan, Nora Jordan, Florence Jordan, Alvin Jordan, William Jordan and Blanche Turley. Burial was in Ebenezer cemetery the bearers being, Charles Black, Frank Masters, C. E. Patterson, Arch Bridgman, John Hadden and C. W. Martin.

The following obituary was read by Rev. J. O. Kirkpatrick:

John Fletcher Jordan was born in Jacksonville, Ill., January 22nd, 1834, and passed away from this life May 21st, 1917, aged 83 years, 3 months and 29 days.

He was born and died in Jacksonville. His birthplace was on the plot of ground, whereon the Passavant hospital stands, part of the old house is still extant. At the age of 2 years his parents moved to a farm some six miles north and west of Jacksonville where the deceased grew to manhood. Thus spending almost all of his long life on the same farm.

He was united in marriage to Cynthia Ann Williamson January 1, 1857. There were five children born of this union, who are as follows: Lydia, William of Chandler, Harriet B., John B. and Charles who is deceased.

He was a man of strength of purpose and loved and cherished his family. He was diligent in business and in these later years handicapped by the loss of a hand, he accomplished much on the farm, putting many a two handed man to shame. Even up to the last months on the farm, he performed many tasks.

He was one of the oldest members of the Ebenezer Sabbath school. His name appears as far back as the records go. He was not only faithful to Sunday school but was a reader of the Word of God and helped to make the Sunday school worth something not only to himself but to all.

Having been reared in a loyal Methodist home surrounded by Christian influences, he deeply imbibed the ideals of Methodism and was ready at all times to defend her policy. In his infancy he was offered unto the Lord by his parents and in baptism was dedicated to his service so from a child he has known the Scripture.

A few days prior to his death his mind was back to other days, he was attending the services conducted by Bro. McElreth and when in his lucid moments he said he felt that it was all well with him.

On Tuesday last the pastor called to see him and found him trusting in God for his salvation. All the many fine qualities of the deceased could not be told at this brief service. It is enough to say, he in his life was an honorable and respected citizen, loving and devoted to his family, ever ready to succor the needy and help a neighbor. In his death he is honored by eulogiums from the many who knew him. He has passed from our vision yet may the aroma of his life and character be shed around us as the perfume of flowers.

We lay him to rest in the beautiful cemetery which for many years he was proud to care for. The deed to the property he held as very sacred and kept it in his possession until the day of his death. For 30 years he was the treasurer of the cemetery association. It is fitting then that he should be laid to rest among so many of his loved ones.

He leaves in his death to mourn his departure, his two sons and two daughters. The daughters especially will miss him for they have lived with him and cared for him and nursed him thru these years since his loving companion went away to live with God. There are two brothers and one sister left of a family of ten children. Besides these there are nine grandchildren and two great grandchildren. All of whom will miss and mourn the loved departed. Now hath my life across a stormy sea.

Like a frail bark reached that wide port where all are bidden ere the final reckoning fall. All good and evil for eternity. Now know I well how that fond phantasy Which made my soul the worshiper and thrall Of earthly art is vain. How criminal Is that which all men seek unwillingly! Those amorous thoughts which we so lightly trust What are they when a double death is nigh? The one I know for sure the other dead. Painting nor sculpture now can lull to rest My soul that turns to His great love on high. Whose arms to clasp us on the Cross were spread.

—Michael Angelo.

## GEN. BARRY MAY BE CHIEF OF ARMY STAFF

When Gen. Scott Goes With Russian Commission Vacancy Will Be Created—"Tom" Barry Rose to Present Rank Thru Own Efforts.

New York, May 22.—New York friends of Major General Thomas H. Barry, U. S. A., are pleased at the mention of his name in connection with the position of Chief of the General Staff of the army. Major General Hugh L. Scott, the present chief of staff, is going to Russia with the American commission and it is assumed that a new man will be chosen for the highest post in the army at no distant date, since General Scott will reach the age for retirement next September. While no official intimation has been given as to the probable successor to General Scott it is generally believed that General Barry has an excellent chance of being chosen for the honor.

General Barry is at present in command of the Central Department, with headquarters in Chicago. He is one of the best known officers in the army, and was the commander-in-chief of the Army of Cuban Pacific campaign that was sent to Cuba following the governmental troubles there some years ago. His rise to fame and position has often been pointed out as a brilliant example of a poor boy, without fortune and influential friends, can go to the front in this country.

Born in New York. Born in the old Greenwich Village section of this city, he was known in his youth as plain "Tom" Barry, who was distinguished in his immediate circle as one of the brightest boys in the public schools, and also as one of the handsomest. Today, if one asked an army officer who was the handsomest man in the service, nine out of ten would answer unhesitatingly, "Major General Barry." He is tall, broad shouldered, without an ounce of superfluous flesh, iron gray hair and mustache, and a ruddy complexion that is the result of years of hard service in the Western plains in the Indian days and in Cuba and the Philippines in more recent years.

General Barry is best remembered by persons not in the army as the commanding general in Cuba following the second occupation of the island by the United States. When he left Havana at the end of the second occupation he was the central figure in a great demonstration in the Presidential Palace, at which time President Gomez assured him that he had inspired the Government and people of Cuba with nothing but "admiration and gratitude."

It was while he was in Cuba exercising that command that General Barry was furloughed to come to New York as grand marshal of the Catholic Centenary parade. After the parade General Barry was the guest of honor at a dinner in the Catholic Club, where he was presented with a gold medal in appreciation of his services in connection with the centennial. Archbishop Farley on that occasion patted General Barry on the shoulder and called him his "big brother" and intimated that if ever he needed physical assistance the General would be the man he would like best to call upon for aid.

Graduated at West Point in 1877. It was at this same dinner that the facts in General Barry's early history were first made public. He was a pupil in one of the grammar schools on the lower West Side in this city. When Chicago's man Robert B. Roosevelt learned what a promising scholar he was he was rewarded with an appointment to West Point. In 1877 General Barry was graduated from the academy as a second lieutenant of cavalry and his promotion followed in quick order to a first lieutenant, and passing thru all the grades, General Barry in August, 1905, just twenty-three years following his graduation was a brigadier-general of regulars. He became a major general in April, 1908.

The present rumors concerning the position of Chief of the General Staff have served to recall the fact that it was General Scott, the present head of the General Staff, whom General Barry succeeded as superintendent of the United States Military Academy in 1910. At the time he received this appointment he was in command of the Department of California.

After nearly three years at the West Point academy General Barry in 1912 was assigned to the command of the Eastern Department, with headquarters at Governor's Island. From this post he was transferred two years ago to his present position as commander of the Central Department.

CLUBWOMEN AT KANSAS CITY. Kansas City, Mo., May 22.—Mobilization of the women of Missouri for service in aid of the nation during the war is the big topic to be considered by the Missouri Federation of Women's Clubs at its seventh biennial convention which began here today. Five hundred delegates are attending the sessions which are presided over by Mrs. William R. Chivvis of St. Louis.

DAKOTA BANKERS DOING THEIR "BIT". Fargo, N. D., May 22.—A series of "patriotic" conventions of the North Dakota today under the auspices of the various district organizations of the North Dakota Bankers' Association. The aims of the bankers are to promote the recruiting of men for military and agricultural service, to help the sale of the Liberty Bonds, and to aid the food production and food conservation movement.

Mrs. Benj. Correa has returned to her home in Hanover, Ill., after a visit with her mother, Mrs. Burnett and husband's mother, Mrs. J. P. Correa on Pine street.

Howard Zahn yesterday sold the 56th Buick to James Emerick of Chapin.

## UNION PACIFIC HELPS TO INCREASE FOOD SUPPLIES

Conservation Special Train Through Iowa and Nebraska Received with Enthusiasm by the Farmers.

Governor Neville of Nebraska, has written a letter to officials of the Union Pacific R. R. congratulating them on the good work along food conservation lines which was accomplished by the Special Conservation Train sent through Iowa and Nebraska last week.

The six-day lecturing tour was conducted in co-operation with the Nebraska State Agricultural college and the Agriculture Extension department of the International Harvester company. At least three meetings were held for men, women and children at 27 towns along the line of the Union Pacific. Twenty-five other points were covered by lecturers who attended 250 meetings and delivered 576 lectures.

All were leading experts and covered subjects of primary importance in the present food crisis, all bearing on increasing crops and live stock production and its importance. The lectures were largely attended again this year as last, as this is a regular annual feature most popular with the farmer as conducted by the Union Pacific.

Governor Neville, in his letter of comments on the success of this endeavor says: "Today more than ever before, every effort should be bent toward greater production, for in the world conflict now in progress, the farmer will play one of the most important parts. As Nebraska, in conjunction with the rest of the middle west has long contributed largely toward the feeding of the world, just so, should she continue, but to an even mightier degree in providing the necessary sustenance of life in the crisis which confronts our country. I am sure that all Nebraskans will heartily thank you for having dispatched this special train through our state."

The governor accompanied the special train last year and so writes that he has a personal knowledge of the success of this work.

Persons arriving in the city yesterday from Naples report water uncomfortably high at that point. Naples is so situated that it is subject to inconvenience from increased flow in the river and has suffered much in times past.

## NOTICE OF AWARD

Notice is hereby given that the Board of Local Improvements of the City of Jacksonville, Ill., at a meeting held on the 21st day of May, 1917, did award the contract for the construction of the improvement of the Right of Way of the Street Railway company on South Main street as contemplated by ordinance to the Jacksonville Railway company on their proposal as follows:

JUST WHAT OUR NAME IMPLIES  
WHOLESALE-RETAIL

SUCCESS  
SATISFACTION  
SERVICE

Jacksonville, Ill., May 19, 1917.

Mr. C. U. Everbody,

Everywhere, Ill.

Friend Farmer:

The proposition is put up to the farmers of the United States to furnish the necessary requirements of life for nearly the entire civilized world. This work calls for an extra amount of care and perseverance, and necessitates every individual doing his part.

Upon the farmers involves the question of increasing the crop production of every acre. The Morgan County farmer who is so fortunate as to have the very best soil and other conditions so much more favorable than nearly any other class, has before him the greatest opportunity in the world to not only preserve the life of others but to make an exceptionally good record and to attain success for himself, which will mean money in the Bank at the end of the season. To do so calls for intensified farming. In order to get what is coming to him he must prepare the most favorable seed bed. He must plant his seed, and after planting must see to it that the weeds do not absorb the moisture and also nutriment of the soil.

As the corn is now popping through the ground it is necessary to kill the weeds and conserve the moisture. What tool is there made that is better than the harrow and corrugated roller? Our large purchasing power has enabled us to stock on this class of goods in a way that we can furnish you at better prices today than it would be possible to buy in car loads from the factory. A corrugated roller on your corn ground sub-packs the soil, breaks the clods, kills the weeds and conserves the moisture. The roller we sell—THE FAMOUS OHIO—built with three standards, has heavy shaft, full length bearing through each disc, hard wood boxing, and is known by all first class dealers to be the superior of any roller made.

We would be pleased to have you call at our show room and investigate the merits of this roller and for your good, will suggest that you make arrangements to purchase one today.

Yours very truly,

JACKSONVILLE FARM SUPPLY CO.

M. R. Range
